Faculty Self Service - Class Search

After logging into MyRED using NUID and TrueYou password (the same password that is used for FireFly), click on the Faculty tab.

To access the Advanced Class Search, click on the Class Search tab. The Class Search tab contains the Advanced Class Search that the students use in MyRED.

ACE Outcomes can be found under Class Attribute.

Search by Class Component like Lecture, Laboratory or Recitation under Class Type.

View open classes only by checking the box next to Open Classes.
Classes will display with the subject, catalog number, and title. The catalog description of the course will also display.

Click on the course to see class section details.

Tip: Use the breadcrumbs for the search to navigate back and forth from results to class sections. To start a brand new search, click on Return to Search.
