The hearing was held at the University of Nebraska-Omaha Alumni Center. It was necessary to
double the size of the hearing room because of the large number of speakers, members of the public
and the press in attendance.

Rosson called the meeting to order at 2:15 p.m. He assured those present that the APC was willing
to stay past the appointed time so that everyone could be heard. He introduced the members of the
Academic Planning Committee and outlined the procedure for the hearing. Invited representatives
of the Industrial Systems Technology program and the Education and Human Resources program
would be allowed five minutes each. Students and other constituents would be allowed shorter
times depending on the number of people who wished to speak. APC would have the opportunity
to ask questions following each presentation.
