Scholarship Description
The Churchill Scholarship provides funding for one year of graduate study for U.S. citizens in the fields of engineering, mathematics, or science at the University of Cambridge; award winners live at Churchill College. Candidates should possess outstanding academic and leadership qualities. The applicant may already be enrolled in a U.S. graduate program at the time of application. The applicant's study or research plans must be well-suited to Cambridge departments. A very high GPA and the GRE General Test are required. Applicants must apply separately for admission to the University of Cambridge no later than mid-October, and at the same time apply to the Churchill Foundation for this scholarship.

The criteria for the selection of Churchill Scholars include:
- Exceptional academic talent and outstanding achievement, especially in the major, as indicated by course grades.
- A capacity to contribute to the advancement of knowledge in the sciences, engineering, or mathematics by pursuing original, creative work at an advanced level as demonstrated by awards, prizes, research, and letters of recommendation.
- Outstanding personal qualities. Successful applicants display a bewildering array of talents and activities outside of academic pursuits, especially in music, athletics, social service, among other activities.

Eligibility
An applicant for the Churchill Scholarship must be a citizen of the United States, either native born or naturalized, and must be a senior who is enrolled in one of the institutions participating in the Scholarship Program or a student who has recently graduated from one of those institutions. Upon taking up the Churchill Scholarship, a Churchill Scholar must be between the ages of 19 and 26, must hold a bachelor's degree or an equivalent, and may not have attained a doctorate.

Campus Deadline April 15
Deadline Early November
