

**Preliminary Application
For
Nationally Competitive Scholarships**

To Prospective Applicants:

In order to receive serious consideration for any of the prestigious and nationally competitive awards listed below, it is vital that you begin the process well in advance of deadlines. This means carefully researching the fellowships and grants in which you are interested. You need to read all the fine print and study the eligibility requirements and selection criteria.

The purpose of this preliminary application is two-fold: 1) to motivate you to get an early start on your fellowship quest and 2) to let our office know that you are interested and motivated to complete a competitive application. If you intend to apply for any institutionally nominated fellowships, this preliminary application must be completed. Please also attach a current academic resume to this form.
