

Sustaining Agriculture in Urbanizing Counties

Insights from 15 Coordinated Case Studies

Authors:

Dick Esseks, Center for Great Plains Studies, University of Nebraska-Lincoln

Lydia Oberholtzer, Consultant, Takoma Park, MD

Kate Clancy, Food Systems Consultant, University Park, MD

Mark Lapping, Muskie School of Public Service, University of Southern Maine

Anita Zurbrugg, Center for Agriculture in the Environment, American Farmland Trust

December 16, 2008

**Funded through a grant from the National Research Initiative of USDA's Cooperative
State Research, Education, and Extension Service: Grant #2004-35401-14944**

Acknowledgements

We express our strong gratitude to:

- **The Rural Development Program of the National Research Initiative (Cooperative State Research, Education, and Extension Service) for funding this research and allowing us four years in which to gather the data and write this report.**
- **Our former student colleagues who assisted in collecting the research data:**
 - a. **John Seward, currently a planner for Eastern Shore Land Conservancy, Queenstown, MD**
 - b. **Monica Stroe, Ministry of Agriculture, Bucharest, Romania**
 - c. **Jessica Nelson, University of Nebraska-Lincoln**
 - d. **Elizabeth Moorhouse, Ph.D., Department of Economics, Lycoming College**
 - e. **Fraser MacDonald, University of Oregon-Eugene**
 - f. **Mark Bauermeister, Iowa State University**
- **The Bureau of Sociological Research of the University of Nebraska-Lincoln, Stacia Halada, Director, for assisting with our survey of 1,922 agricultural land owners in the 15 studied counties.**
- **The Center for Great Plains Studies (CGPS) of the University of Nebraska-Lincoln, James Stubbendieck, Director, for sponsoring the project and providing us with a research home.**
- **Gretchen Walker of the CGPS for being the project's budget officer and helping us in many other different ways.**
- **Kim Weide of CGPS for managing the project's web page on the Center's Internet site.**

Table of Contents

Executive Summary	ES-1
Chapter 1: Research Objectives and Methods.....	1-1
1. Introduction	1-1
2. Motivation for Research	1-1
3. Research Objectives	1-3
4. Justification for Our Research Focus	1-3
5. Research Methods	1-7
Chapter 2: Markets.....	2-1
1. Introduction	2-1
2. Marketing in 15 Counties	2-1
3. Market Outlets, Accessibility, and Profitability	2-6
4. Programs to Improve Marketing	2-16
5. Comments.....	2-20
Chapter 3: Inputs of Production -- Land.....	3-1
1. Introduction	3-1
2. Conversion of Land out of Agriculture	3-1
3a. Affordability of Agland to Purchase	3-4
3b. Affordability of Rented Land.....	3-8
4. Rural Zoning and Municipal Growth Policies to Prevent or Slow the Rate of Farmland Conversion	3-10
5. Programs for Purchasing and Transferring Development Rights	3-21
6. One Solution to the Affordability Problem: Public Agencies Purchase Agland and Lease it to Farmers	3-35
7. Agricultural Use-Value Assessment for Property Tax Purposes	3-36
8. Right-to-Farm Laws and Conditions Shaping Their Effectiveness	3-41
9. Needed—A Package of Land-Use Policy Tools?	3-49
Chapter 4: Labor, Credit, and Other Inputs of Production besides Land.....	4-1
1. Introduction	4-1
2. Human Inputs: Labor for Crop and Livestock Operations	4-3
3. Human Inputs: New Farmers	4-13
4. Human Inputs: Large-animal Veterinarians	4-16
5. Bank and Other Credit.....	4-17

6. Manufactured and Processed Inputs: Implements, Chemicals, and Seeds.....	4-23
7. Water for Livestock or Irrigation	4-32
Chapter 5: Outlook for the Future.....	5-1
1. Introduction	5-1
2. Surveyed Owners’ Expectations about How Much of Their Farmland Would be Developed in 10 Years (2016)	5-3
3. Investing in the Land’s Agricultural Productivity.....	5-7
4. Surveyed Operators’ Expectations about Whether They Would Be Farming in the Count in Ten Years (2016).....	5-10
5. Surveyed Owners’ and Interviewed Local Ag Experts’ Predictions about the Future of Agriculture in the County (in 2026).....	5-14
6. Would Local Experts Recommend that Young People Farm in the County?.....	5-23
7. Policy Recommendations for Promoting Healthy Agricultural Sectors on the Urban Edge.....	5-28
