I am going to say some things and ask you some questions about "bullies" and bullying"

Bullying is anything from teasing or saying mean things to physical attacks (like hitting, pushing, and kicking), where one person or a group of people picks on another person over a long time. Bullying can happen in school, and when going to and from school.

When I ask you each question, write a "Y" or "yes" if what I say is true, or an "N" or "no" if it is not true. There are no right or wrong answers, and no one will know what you have answered, so please answer as truthfully as possible.
