HARPER COUNTY

Harper County lies near Indian Territory, west of the 6th Meridian. It has 10,452 inhabitants as opposed to 14,486 the year before. This decrease is the result of excessive migrating of the striped Cherokee. Topography of the county here is gently rolling and soil is very fertile, locally what is called red is predominate. The price of land here is mostly from \$2000 to \$3000 for 160 acres. The Czechs here formed the first social community in the county in the farming settlement of Sumner county which possesses a historical society which says they rode horse-back to Caldwell to market until in the year 1887. At the end is the St. L. and S.F. railroad and loan office in the town of Bluff where until now is the largest trade area for Czechs in the southeast part of the county.

McPherson County, Kansas - 15 August (Srpna) 1895 - 'Hospodar' Newspaper

McPHERSON COUNTY

McPherson County lies in the center of the state. It has 21,359 inhabitants. Town of McPherson is the county seat. Topography of the county is gently rolling. Water is good. In the southwest part, we find here and there drop-offs of lowlands, which forms a wet weather lake. A large similar lake here is called Big Basin, which we find near the town of Jackson which constitutes 2000 acres of ground. First of the Czech settlers here, and where there is only six families, A Mr. Kubin a settler who came in year 1871 to a wilderness in this part of the county. Also some first arrivals were Mennonites from Russia who settled in the county. The Czechs here now are in good standing in spite of their trouble and distress in this settlement.
