SUMNER COUNTY

Sumner County lies near Indian Territory, on each side of the 6th Meridian where the line divides east and west. It has 27,126 inhabitants. Topography in the county is gently rolling. Soil here in the south part is different - it begins what is called red soil, then in the north, the soil is black-grey. In one locality, we find an alkali base under soil on the surface, and land that lies at the head of rivers and streams where under the veiling of green cover, it is arid dry except in the spring months. Price of land here is considerably opposite from in the north. The Czech settler is in two communities. The smaller one is in the south near Oxford towards the east part of the county, and the larger community is in the southwest part, northwest of Caldwell. The first Czech settler here is Mr. Fr. Kubik.
