Art History and Criticism (AHIS)

AHIS 805 Curatorial Methods in an Art Museum
Prerequisites: AHIS 905
Description: Understanding through direct experience how the rhetoric of the art museum and art exhibition alters, frames and revises art historical arguments, issues, questions and research. In order to do so, each iteration of the seminar will select a particular art historical concept (e.g. ephemeral art; interactive art; gendered art; labor and(in) art; illness and art, and so on) and critically assess how curators can best express an argument about the history and meaning of art within the terms set by the museum. Those terms include both the ideological and practical: education, conservation, collections management, marketing development, publications, visitor evaluation and administration. Students will gain a sophisticated understanding of the methods available to curators for researching, organizing and expressing an art historical question in the form of an exhibition. The Sheldon Museum of Art serves as a lab for this course. Students will follow the path of an exhibition from original proposal to installation, considering the curator’s involvement and interactions with all the departments of the museum.

CDEV 850 Immigrants in Communities
Description: Course work will address the considerable demand across the region for such a course from individuals working in communities with new immigrant populations. Many areas in the US experience an increasing immigrant population who represent an important economic engine, but may also be a source of concerns about community continuity and change. This course will be available to practitioners who are facing these issues in their communities and want to frame positive community action. Populations are aging in all of the OECD countries, especially in rural areas. Lower fertility and out-migration of young people is off-set in many counties are off-set by new immigrants. While welcomed by the economic interests, they are seen a putting pressure on social services, of questionable legal status, and of being different. The course will take a comparative approach to how different countries and different communities have responded to new immigrants, based on literature from Australia, Europe, Canada, and the U.S., with reference to Japan and New Zealand. Class members will carry out case studies of the inclusion of immigrants in their own community and an action plan for increasing inclusion to contribute to the economic vitality of that place. Course will be taught by Iowa and will be offered spring semester. To enroll, students must be enrolled in the Community Development Master's Degree program or obtain permission.

LAW 577 International Trade: Agriculture, Food & Wine
Crosslisted with: LAW 577G
Notes: The course is delivered through a blended learning incorporating online teaching materials and modules.
Description: Seeks to raise competence in international trade and economic development through an understanding of the role and impact of agriculture and food. Understanding agricultural policy models, the role of intergovernmental organizations, and the growing impact of new impediments to trade such as those manifested in private standards are all key to appreciating today’s globalized market for agriculture and food. The food and agriculture area is one that has witnessed dramatic transformation in markets and methods in recent years with retailers gaining an ever greater influence over production and distribution decisions. This development has been concurrent with and in contrast to the growing efforts in Aid for Trade in agriculture, food production and food security when the world’s population is approaching 9 billion. Finally, trade in wine presents a microcosm of trade topics, including agriculture, technical barriers to trade (TBT), sanitary and phytosanitary measures (SPS), intellectual property, national treatment, and cross cultural negotiations, against the backdrop of a comparatively small agricultural sector. Provide students with a practical and case study-based background in global trade in food and agricultural products.

LAW 582 Domestic CyberSecurity
Crosslisted with: LAW 582G
Description: Cybersecurity is one of the most important and challenging emerging legal issues of the 21st century. Networked computer systems give bad actors access to data and information stored on those systems (e.g., consumer financial or health information; trade secrets and other sensitive commercial information), control over the systems themselves (e.g., to damage or disrupt; to use for other computer-based activities), and access to physical-world control systems (e.g., control over industrial equipment, electrical infrastructure, or driverless cars). Amazingly, there is no coherent legal framework to address these issues. There is, however, an at-times incomplete and at-times overlapping patchwork of legal authorities that applies to many of them. Moreover, many of these issues implicate technical considerations: either technology makes it more difficult for the law to address them, or they are better solved by technology than through the law. This class provides students with an interdisciplinary introduction to cybersecurity law, focusing on the legal frameworks that exist today, the challenges of developing more comprehensive legal frameworks, and the nuts-and-bolts guidance that lawyers need to be able to give their clients when it comes to good (and bad) cybersecurity practices.

Graduate Studies Policies

This section of the catalog covers policy specific to Graduate Studies.
Any questions about these policies should be directed to Graduate Studies (http://www.unl.edu/gradstudies/contact/).

It is the responsibility of the student to be familiar with the information in this catalog and on the Graduate Studies website (http://www.unl.edu/gradstudies/), and to know and observe all regulations and procedures relating to the program he or she is pursuing. In no case will a regulation
be waived or an exception granted because a student pleads ignorance of, or contends that he or she was not informed of, the regulations or procedures. A student planning to graduate should be familiar with the dates relating to application for graduation and other pertinent deadlines.

The University of Nebraska–Lincoln expressly reserves the right to: add or delete courses from its offerings and to change times or locations; change academic calendars without notice; cancel any course for insufficient registrations; modify, consolidate, or delete any program; and revise or change rules, charges, fees, schedules, courses, requirements for degrees, and any other regulation affecting students including, but not limited to, evaluation standards, whenever considered necessary or desirable.

Academic Program Requirements

Graduate Studies

The University of Nebraska-Lincoln offers over 160 different graduate programs: master’s degrees, doctoral degrees, Educational Specialist degrees, and graduate certificates.

See Programs Offered (http://www.unl.edu/gradstudies/prospective/programs/colleges/) for current counts and offerings.

Enrollment Options

Degrees and Majors

The University of Nebraska-Lincoln offers many graduate programs (https://www.unl.edu/gradstudies/academics/programs/) leading to the doctoral degree, the master’s degree, the educational specialist degree, and graduate certificates. To earn a graduate degree, students must choose a disciplinary major and meet all coursework and other academic requirements.

Specializations

A specialization is a focused collection (subset) of courses within a major. Specializations must represent a minimum of 9 credit hours of the degree requirements. Students may choose a specialization at the time of application or later when submitting a master’s Memorandum of Courses or doctoral Program of Studies. A specialization is listed with the major on official transcripts.

Concurrent Degrees

Graduate students may be admitted to two degree programs simultaneously with approval of each Graduate Program Committee and the Dean(s) for Graduate Studies. Concurrent degrees may be pursued on multiple campuses of the University of Nebraska system. Concurrent degrees may be pursued by two possible routes:

- **Coordinated Dual Degree Programs**: Established dual degree programs shall appear as a single application on the Graduate Application for Admission. (An exception is the College of Law dual degree programs that require two separate applications.) With the required approval, credit hours may be shared between both degrees. Specific courses to be shared must be identified at the time coordinated programs are established. Coordinated programs result in the conferral of two degrees. Both diplomas must be awarded in the same commencement term if credit hours are shared.

- **Independent Concurrent Degrees**: Pursuit of two unrelated graduate degrees requires two separate applications and two application fees. Application to each degree program need not occur in the same term. Each degree program is administered independently of each other; however, approval by each Graduate Program Committee and the Dean(s) for Graduate Studies is required. Credit hours may be shared between both degrees. Specific courses to be shared must be identified at the time of approval. Completion of requirements for independent concurrent degrees results in the conferral of two degrees. Both diplomas must be awarded in the same commencement term if credit hours are shared.

One Degree, Double Major

Students pursuing a master's degree may add a second major, with approval of the Graduate Program Committees of each major. Students approved for a double major must meet the minimum requirements for each major, including at least 18 hours in each major, excluding cross-listed courses in the second major. The precise number of credits may vary depending on the total required hours for a particular major. For each major, students must take at least 8 credits in courses open only to
graduate students (900 level or 800 level without an undergraduate level counterpart), excluding thesis hours.

Students are required to satisfy the comprehensive examination schedule—written and/or oral examination—for each major. The examination committee shall consist of two graduate faculty members (or non-graduate faculty approved to perform specified graduate faculty duties) from each of the major departments. The committee shall be co-chaired by a faculty member from each of the major departments.

Minors

A minor for the master's degree under any option must consist of at least 9 credit hours and may be taken in any one department or interdepartmental area that has been approved to offer a major leading to a master's degree. In addition, the minor may, in certain departments, be completed in a subdivision of the administrative department. Approved fields of study, which may be selected within each administrative department, must be approved by the Graduate Council for use as a minor.

A minor for the doctoral degree must include at least 15 credit hours with 6 hours in courses open exclusively to graduate students (900 level or 800 level without an undergraduate level counterpart). It may be taken in any department that has been approved to offer a major leading to a master's degree. In addition, the minor for the doctorate in certain departments may be completed in a subdivision of the administrative department. Approved fields of study, which may be selected within each administrative department, must be approved by the Graduate Council for use as a minor.

Graduate Certificates

A graduate certificate is an academic credential awarded to a student upon completion of required coursework in a specific subject area. Graduate certificate programs are post-baccalaureate and consist of 12-20 credit hours. Students may be admitted to a graduate certificate and graduate degree program simultaneously, although admission to a degree program is not required. At the discretion of a student's supervisory committee, credit hours earned in a certificate program may apply to a degree program.

Non-Degree Coursework

Students meeting the minimum admission requirements (p. 499) may enroll in graduate courses. Acceptance in a graduate certificate or degree program is not required. Non-degree admission carries no guarantee of future admission to a degree program, nor does it guarantee that coursework completed as a non-degree student can later be applied toward a degree. Non-degree admission is not available to international students on F-1 student visas.

Teacher Certification and Added Endorsements

UNL offers graduate courses leading to the State of Nebraska Department of Education (NDE) initial teacher certification, renewal of teacher certification, and added endorsements. Teacher certification is granted by the NDE, not the University. Coursework leading to certification can be completed at UNL. The NDE determines the content requirements; the University delivers the courses.

Doctoral Degrees

DOCTORAL OVERVIEW

Doctoral Programs Offered

UNL Graduate Studies oversees four doctoral degrees:
- Doctor of Philosophy (PhD)
- Doctor of Education (EdD)
- Doctor of Musical Arts (DMA)
- Doctor of Audiology (AuD) – As of October 1, 2016, the AuD is administered by Graduate Studies. Revisions to this catalog to include the AuD are not yet complete.

See Programs Offered (http://www.unl.edu/gradstudies/prospective/programs/colleges/) for a current list of degrees and majors, Enrollment Options (https://unl-currcourseleaf.com/graduate-professional/graduate/degrees/enrollment-options/) for related policy, and the Graduate School Glossary (http://www.unl.edu/gradstudies/glossary/#degrees) for a better understanding of the different degrees.

UNL also offers additional professional doctoral programs — e.g., JD, DPH, DVM — which are not overseen by Graduate Studies or covered by Graduate Studies policy.

To qualify for a doctoral degree, it is the student's responsibility to meet the following requirements as part of the Doctoral Degree Milestones (http://www.unl.edu/gradstudies/current/degrees/doctoral/):
1. Establish a Supervisory Committee (p. 493) prior to completion of one half of the doctoral coursework.
2. Complete a Program of Studies (p. 493), approved by the Supervisory Committee and filed in Graduate Studies prior to completion of one half of the doctoral coursework.
3. Achieve academic residency (p. 494).
4. Pass a comprehensive examination (p. 494) — in the major and minor fields of study.
5. Achieve candidacy (p. 494) and satisfy requirements for registration during candidacy.
6. Prepare a dissertation (for PhD or EdD) or doctoral document (for AuD or DMA), pass a final examination (p. 495) (defense), and submit the approved final version to the University.
7. Complete all work for the doctoral degree within eight years of filing the Program of Studies in Graduate Studies.

Research Responsibility

All research involving human or animal subjects must receive approval from the Institutional Review Board (IRB) and/or the Institutional Animal
Care and Use Committee (IACUC). The IRB New Protocol Submission form is completed online via NUGrant (http://nugrant.unl.edu/); the Application to Use Animals is available from the Office of Research Responsibility (http://research.unl.edu/researchresponsibility/forms/).

Approval must be secured prior to the initiation of the research; the IRB and IACUC will not review projects already in progress. Evidence of IRB/IACUC approval must be submitted at the time the final dissertation is filed.

SUPERVISORY COMMITTEE

The Supervisory Committee shall approve the student’s Program of Studies; monitor the student’s academic progress; approve the dissertation subject; prepare, give and evaluate the comprehensive examination; approve the final dissertation; and prepare, give and evaluate the final examination. (SOURCE: Graduate College Policy Handbook, 2018)

A Supervisory Committee is established before a doctoral student has accumulated 45 credit hours, including any transfer hours, but excluding research or language tools. Prior to the approval of the student’s Program of Studies, the Supervisory Committee is appointed by the Dean for Graduate Studies based on a recommendation of the departmental or interdepartmental Graduate Committee in the student’s major.

The Supervisory Committee consists of at least four members of the Graduate Faculty (https://catalog.unl.edu/graduate-professional/graduate/faculty/) or non-Graduate Faculty approved to perform specified Graduate Faculty duties. At least one Graduate Faculty member external to the academic department or program, but within the University of Nebraska Graduate College, must be included on the committee to serve as the Outside Representative. If the student is pursuing a minor, the committee member from the minor department may serve as the Outside Representative.

Graduate Faculty with emeritus status may co-chair the supervisory committees of doctoral students with a resident Graduate Faculty member.

Member Roles

- **Chair or Co-chair:** The Chair or Co-chair of a doctoral student’s committee serves as the advisor and mentor of the student. The Chair or Co-chair may not serve as the Outside Representative or as a designated Reader.
- **Reader:** Two members of the committee are designated as Readers. They and the Chair read the draft(s) of the dissertation to determine whether the student is ready to defend. Special Members and Outside Representatives may serve as Readers.
- **Outside Representative:** The role of the Outside Representative is to broaden the scholarly representation of the student’s committee and to provide an impartial perspective. If the student is seeking a minor, the faculty member representing the student’s minor may serve as the Outside Representative.
- **Special Member:** A faculty member from another institution external to the University of Nebraska system may serve as an “extra” committee member. Only one Special Member may serve on a supervisory committee. Special Members have voting rights on the committee. A Special Member may serve as a Reader, but may not serve as the Outside Representative.

Program Requirements

- At least half of the graduate work, including the dissertation, will be completed in the student’s major.
- It must contain sufficient credit hours:
  - PhD: At least 90 credit hours, including 12 to 55 hours of dissertation research.
  - EdD: At least 96 credit hours, including 6 hours of research tools and 12 to 55 hours of dissertation research.
  - DMA: At least 90 credit hours, including a minimum of 3 hours doctoral document research.
  - AuD: At least 87 credit hours.
- It must include any departmental language or research tool requirements.
- It must be filed within the same semester as the appointment of the Supervisory Committee.
- The time limit on granting the doctoral degree is eight years from the time of filing the student’s Program of Studies in Graduate Studies.

Any subsequent change in the program is approved by the Supervisory Committee and the action reported to Graduate Studies in writing.

The Supervisory Committee will determine what course work taken prior to filing of a Program of Studies, including hours earned toward the master’s degree(s), will be accepted as part of the program’s 87-96 hours.

- The Supervisory Committee is not obligated to reduce the doctoral Program of Studies by applying course work completed prior to its appointment.

Changes to the Committee

Changes may be made to a Supervisory Committee any time prior to the submission of the Application for Final Oral Exam using a change request form as described in the Doctoral Milestones (http://www.unl.edu/gradstudies/current/degrees/doctoral/).

If the Supervisory Committee Chair leaves the employ of the University, or retires or is otherwise unable to serve on the Committee, Graduate Studies must be notified immediately and a change in the Committee made as follows:

- If the student has achieved Candidacy, the former chair who has left may continue to serve as co-chair of the Supervisory Committee, with approval of the departmental Graduate Committee and the Dean for Graduate Studies. A second co-chair must be appointed who is a resident Graduate Faculty member.
- If the student has not achieved Candidacy, a new chair of the Supervisory Committee who is a resident Graduate Faculty member must be appointed immediately, with the agreement of the departmental/school Graduate Program Committee and the Dean for Graduate Studies.

If a member other than the Chair leaves the employ of the University or retires, a replacement should be appointed who is a resident graduate faculty member. When continuing expertise is needed and the faculty member is willing to continue serving, he/she may continue as a member of the Supervisory Committee, with the approval of the Supervisory Committee Chair and the concurrence of the Dean for Graduate Studies.
• Prior course work is assessed in relation to its contribution to framing a research foundation for the degree. Each course accepted must be current and relevant in relation to the desired degree.

• No graduate credit will be accepted from a previously awarded doctoral degree at any institution, including UNL.

Language and Tools
There is no uniform language or research tool requirement for UNL Graduate Studies. Students should contact their Graduate Chair for specific departmental requirements.

All required language or research tools requirements for the student’s program should be listed on the Program of Studies by the Supervisory Committee and be satisfied prior to filing the Application for Admission to Candidacy, which is due at least seven months before the scheduled final oral examination.

Academic Residency
Academic residency requires the doctoral student to enroll in a specified number of hours related to the degree within a specific timeframe. This ensures that each doctoral program is reasonably compact, continuous, and cohesive, and that a substantial portion is done under close supervision by the University. No additional hours over and above those for the required program of studies will be needed to fulfill academic residency.

For a student beginning a doctoral program:

• With a bachelor's degree: The requirement is 27 hours of graduate work within a consecutive 18-month period, and 15 of these 27 hours must be taken after receiving a master’s along the way or completing 30 hours.

• With a master's degree: The requirement is 27 hours of graduate work within a consecutive 18-month period.

• As University staff or a person employed full-time in their major field: The requirement is 24 credit hours of graduate work within a consecutive two-year period, and 12 of these 24 hours must be taken after receiving a master's along the way or completing 30 hours. For registration restrictions, refer to University Staff Exemption (http://nebraska.edu/faculty-and-staff/benefits/employee-and-dependent-scholarships.html).

The academic residency requirement must be met prior to the scheduling of the final oral exam.

In exceptional circumstances, where it is clear that the purpose of residency will be fulfilled although the above formal conditions are not met, the student’s Supervisory Committee may, with the approval of the Dean for Graduate Studies, designate an alternative procedure for satisfying the residency requirements.

COMPREHENSIVE EXAMINATION
When a student has substantially completed studies in the doctoral program, the student must pass a written comprehensive examination in the major and minor fields of study. At the discretion of the supervisory committee, an oral comprehensive examination may also be required.

Requirement and Scheduling
The Supervisory Committee arranges for comprehensive examinations at least seven months prior to the final oral examination (defense).

• The written comprehensive examination is an investigation of the student's breadth of understanding of the field of knowledge of which his/her special subject is a part. It is not a repetition of course examinations.

• An oral comprehensive examination may be required at the discretion of the Supervisory Committee. The oral exam may include the minor or related fields in addition to the major field of study. If an oral exam is required, it is part of the comprehensive exam requirements to be met before candidacy.

Examination Results
Upon successful completion of comprehensive exams, an Application for Candidacy should be filed as described in Doctoral Milestones (http://www.unl.edu/gradstudies/current/degrees/doctoral/#candidacy).

Otherwise, if the Supervisory Committee determines that the student has failed the comprehensive examination:

1. A letter is submitted by the chair of the Supervisory Committee to the Dean for Graduate Studies stating the conditions under which the student may attempt another examination.

2. Only one attempt may be made per academic term. Only two attempts overall are permitted, unless additional attempts are approved by the Supervisory Committee.

CANDIDACY
The Supervisory Committee files the Application for Admission to Candidacy as described in Doctoral Milestones (http://www.unl.edu/gradstudies/current/degrees/doctoral/) once the student has:

• Met any provisional admission requirements

• Satisfied language and research tool requirements

• Passed the comprehensive examination(s)

This form must be filed in Graduate Studies at least seven months prior to the final oral examination (defense).

Continuous Registration
Once candidacy is achieved, the student must register for at least one credit hour each fall and spring until they graduate, even after meeting the total dissertation hours on their Program.

• Failure to register will result in termination of candidacy and program.

• Academic Leave (p. 512) can, for eligible students, provide an exception to the continuous registration requirement.

• Candidates do not need to register for summer unless required by their department during an assistantship, for a student visa, to defer student loans, or for Health Center access.

Credit Hours
Doctoral candidates may need to register for additional hours due to the following factors.

• To be exempted from withholding for FICA (Social Security) and Medicare, candidates being paid as graduate assistants must either have full-time status or register for 4 cr each term.

• Campus Services/Facilities: Graduate students registered for at least 1 cr per term are able to access the University Health Center (http://health.unl.edu/), University Libraries (http://libraries.unl.edu/), and Campus Recreation Center (http://crec.unl.edu/). Additional charges may be incurred based on use.
• Health Insurance (http://www.unl.edu/gradstudies/current/health/): All UNL students enrolled in at least 6 cr or full-time certified are eligible to purchase this plan. Graduate assistants and international students are automatically enrolled in health insurance.
• Eligibility for financial aid (http://financialaid.unl.edu/eligibility.shtml) typically requires enrollment of 4 cr per fall or spring. It also involves the fraction of attempted credit hours completed successfully (http://financialaid.unl.edu/sap.shtml) and whether the student has exceeded a maximum number of credit hours allowed for a degree objective.

Full-Time Status
Full-time status normally requires 9 cr each fall and spring. However, Candidates enrolling in at least 1 credit hour per term can be classified as full-time if they request and are approved for Certification of Full-Time Status (http://research.unl.edu/gradstudies/fulltime/) before each term.

Doctoral students may use full-time certification for a maximum of two consecutive years. To maintain full-time status beyond that, a candidate must again register for at least 9 cr each fall/spring.

Tuition and Fees

Retaining Resident Rate: Candidates who were classified as Nebraska residents for tuition purposes and relocate out of the state while maintaining continuous enrollment remain eligible for resident tuition.

All But Dissertation (ABD): Students who have completed all courses on the Program and who are registering for dissertation (999) hours in excess of the requirements of the Program to maintain continuous registration are eligible for a waiver of the non-resident portion of tuition. To qualify for this benefit, students must (1) have grades for all courses on the Program of Studies except for dissertation (999) hours and (2) send email to the Doctoral Specialist (http://www.unl.edu/gradstudies/current/degrees/doctoral/) requesting this benefit. Once approved, this status remains in effect until the student graduates.

DISSERTATION AND FINAL ORAL EXAM

Dissertation Requirements

The dissertation is of no fixed length. Students work with their advisor and/or Supervisory Committee to determine the subject of the dissertation.

The dissertation abstract may not exceed 350 words in length.

See Preparing a Dissertation (http://www.unl.edu/gradstudies/current/degrees/guidelines/) for formatting required by Graduate Studies. Style guidelines are determined by the student’s specific discipline.

Reading Committee

Following approval by the major advisor, the dissertation and abstract should be presented to the Reading Committee for review at least four weeks prior to the oral examination. The Reading Committee consists of two members from the Supervisory Committee, excluding the Chair or Co-chair.

An Application for Final Oral Exam (http://www.unl.edu/gradstudies/current/degrees/doctoral/#oralexamform) is due in Graduate Studies at least two weeks prior to the scheduled defense, indicating that the committee chair(s) and the readers have read the dissertation, find it suitable for a defense, and grant permission for the defense to be held. All committee members should be given sufficient time to read the dissertation prior to the defense.

If only one member of the Reading Committee dissents, the dissertation defense or oral exam may proceed upon written recommendation by the supervisory committee, accompanying the Application for Final Oral Exam.

Final Oral Examination

Approval of the dissertation is solely the responsibility of the Supervisory Committee. The academic expectations and standards of acceptability for dissertations, as established by each departmental Graduate Committee, shall be the benchmark by which dissertations are judged. No individual or organization other than the University of Nebraska graduate faculty (or non-graduate faculty members granted permission to serve on Supervisory Committees) may participate in judging the acceptability of a dissertation, including (but not limited to) journal editors, peer reviewers, and adjudicators.

Submission of manuscripts or other works for publication shall not be a requirement for the graduate degree. This does not preclude departmental Graduate Committees from stating in their graduate handbooks the expectation that a dissertation should yield publication-quality research or juried works; nor does it prevent graduate students from submitting manuscripts and publishing articles prior to defending their dissertation.

The final oral examination must be scheduled for a date when a majority of the Supervisory Committee, including the Chair(s), are available for the examination. Exceptions may be made only by permission of the Dean for Graduate Studies.

The final examination for the doctoral degree is oral and open to the University community and the public.

• The Supervisory Committee determines the defense’s character and length. The examination may be devoted to the special field of the dissertation or to the Candidate’s general knowledge, or it may be designed to test judgment and critical powers.
• All persons may be present during the dissertation presentation and general questioning. However, this is followed by a closed questioning portion of the examination for which all persons except the Candidate, Supervisory Committee, and invited faculty must be excused.
• The final oral examination over the dissertation may be waived only with the consent of the Dean for Graduate Studies.

The Supervisory Committee reports the results of the final oral examination to Graduate Studies.

1. If the committee agrees unanimously that the student has passed: A Report of Completion (http://www.unl.edu/gradstudies/current/degrees/doctoral/#oralexam) is signed by all committee members present for the defense.
2. If only one member dissents: The dissenting member files a letter of explanation in Graduate Studies, but the student is approved for the degree and a Report of Completion is signed accordingly.
3. If more than one member dissents: The student fails to pass the final oral exam. The committee files a report on the failure in Graduate Studies, indicating what the student must do before attempting another examination. A student may attempt a final oral exam only once per term.
Depositing
Following the successful completion of the oral examination, the student should complete the remaining Doctoral Milestones (http://www.unl.edu/gradstudies/current/degrees/doctoral/#oralexam).

Only abstracts and dissertations that meet all published requirements can be approved and stamped for depositing.

Depositing also involves payment of a processing fee and, if applicable, a fee to register a copyright.

Master's Degrees
Graduate Studies

Master's Programs Offered
See Programs Offered (http://www.unl.edu/gradstudies/prospective/programs/colleges/) for a current list of degrees and majors, Enrollment Options (https://unl-curr.courseleaf.com/graduate-professional/graduate/degrees/enrollment-options/) for related policy, and the Graduate School Glossary (http://www.unl.edu/gradstudies/glossary/#degrees) for a better understanding of the different degrees.

UNL's professional master's programs — e.g., MArch, LLM — are not overseen by Graduate Studies or covered by Graduate Studies policy.

Core Requirements
A student progresses toward a master's degree by completing the sequence of Master’s Degree Milestones (http://www.unl.edu/gradstudies/current/degrees/masters/) before their posted deadlines and while following these policies:

For All Master's Degrees
The Memorandum of Courses is filed before the halfway point — before grades (letter grades, no reports, or Incompletes) have been received in more than one half of the courses listed on the Memorandum — and on recommendation of the major and minor departments and approval of Graduate Studies.

• A student may NOT file a Memorandum and graduate in the same term.
• Students have ten years from the oldest course listed on the Memorandum to complete the degree. Courses exceeding this limit may not be used toward a master’s degree.

A student is admitted to Candidacy for the master’s degree when admission deficiencies have been removed and the Memorandum of Courses has been filed.

The student must apply to graduate.

The Final Examination Report is due in Graduate Studies at least four weeks (three weeks in summer) before the final exam, if required, but in no case later than four weeks before the final date for oral exams. The report will be accepted after all courses on the Memorandum have been completed or are in progress, and any Incompletes have been removed.

• Written examinations in major and minor fields, if required, must be passed at least one week prior to the oral exam.
• An oral examination, if required, is administered by the examining committee.
• See Examinations for the Master’s Degree (p. 497) for full policy.

Additional For Option I (Thesis)
The subject of the thesis must be approved by the departmental Graduate Committee, and the thesis must conform in style and form to the guidelines in Preparing a Thesis or Dissertation (http://www.unl.edu/gradstudies/current/degrees/guidelines/).

The preliminary thesis and abstract must be approved prior to the oral exam.

• A Candidate is eligible to apply for the final oral exam or its waiver only after the completed thesis is approved by the advisor.
• An electronic copy of the thesis is due in Graduate Studies at least two weeks (one week in summer) prior to the oral exam, or if the oral exam is waived, no later than two weeks before the final date for oral exams.
• The thesis must be presented to the examining committee at least two weeks prior to the oral exam.

After successful completion of the oral exam, the finalized thesis is due in Graduate Studies for final approval prior to upload and deposit.

Research Responsibility
All research involving human or animal subjects must receive approval from the Institutional Review Board (IRB) and/or the Institutional Animal Care and Use Committee (IACUC). The IRB New Protocol Submission form is completed online via NUGrant (http://nugrant.unl.edu/); the Application to Use Animals is available from the Office of Research Responsibility (http://research.unl.edu/researchresponsibility/forms/).

Approval must be secured prior to the initiation of the research; the IRB and IACUC will not review projects already in progress. Evidence of IRB/IACUC approval must be submitted at the time the final thesis is filed.

Thesis and Non-Thesis: Options I, II, and III
The NU Graduate College offers master’s degrees under three Options, except in a few departments where such a choice is not feasible.

For All Options
• No courses older than 10 years will apply toward master’s degree requirements at UNL.
• A written or oral comprehensive examination is required.
• Courses open only to graduate students are those numbered at the 900 level, or at the 800 level without counterparts at the 400 level or below.

Option I
• Minimum 30 cr, including 20-24 cr of regular coursework.
• Thesis required, equivalent to 6-10 cr. At least half of the required work, including thesis, must be in one major subject.
• Minor optional, at least 9 cr.
• 8 cr, in addition to the thesis, must be in graduate-only courses.
Option II
- Minimum 36 cr, a major and one or two minors.
- No thesis required.
- Minor required, at least 9 cr.
- At least 12 of the 36 cr must be in graduate-only courses.

*MEd is only available as Option II.*

Option III
- Minimum 36 cr.
- No thesis required.
- No minor available.
- At least 18 of the 36 cr must be in graduate-only courses.

*Accountancy MPA is only available as Option III; its students must earn at least 20 cr in graduate-only courses and at least 15 cr of those must be in Accountancy.*

Change of Option
Students may change their declared Option at any time during the program of study with written approval from the advisor, the Chair of the Graduate Committee in the student's major, and the Dean for Graduate Studies. The only exception to this policy is that students may not change from Option I to any other Option if certification of full-time status has been utilized.

Comprehensive Examinations

Examination Requirement
All master's students are required to complete a comprehensive examination — written and/or oral as required by the appropriate academic departments.

- The written exam, if required, must be completed within 24 months prior to the date of graduation.
- When an oral examination is required, the examining committee will consist of at least three members representing the major department and the minor department (if applicable), recommended by the major department and approved by Graduate Studies.
  - All professors on the examining committee must have Graduate Faculty status — full or Associate.
  - If a committee member leaves the employ of the University or retires, a replacement should be appointed. When continuing expertise is needed and the faculty member is willing to continue serving, the departing faculty member may remain as a member or co-chair of the committee, with approval of the department Graduate Committee and Graduate Studies.

For an Option I student's oral examination to be waived, the student must have completed a written examination within the 24 month time requirement, and the thesis must be approved in writing by a Graduate Faculty member in addition to the major advisor.

When the program includes a minor, the comprehensive examination in the minor field(s) (written and/or oral) may be waived subject to the approval of the minor department(s) provided all grades in the minor are at least a B or pass.

Examination Results
Upon successful completion of the examination(s), the student proceeds with steps outlined in the Master’s Degree Milestones (http://www.unl.edu/gradstudies/current/degrees/masters/).

- When the examining committee's "pass" decision is not unanimous but only one examiner dissents, the student is to be approved for the degree. The dissenting member files a letter of explanation in Graduate Studies.
- If a student fails to pass the final oral or written examination, the committee files a report on the failure in Graduate Studies and indicates what the student must do before taking another examination. Another examination may not be held during the same term.

Educational Specialist Degree

When the program includes a minor, the comprehensive examination in the minor field(s) (written and/or oral) may be waived subject to the approval of the minor department(s) provided all grades in the minor are at least a B or pass.

Certificate Programs

Graduate Studies

Graduate Certificates
Graduate certificate programs are designed for post-baccalaureate, graduate, or post-graduate students. See Programs: Graduate Certificates (p. 3) for course requirements and links to application instructions. A graduate certificate typically requires at least 12-15 credit hours of work past the bachelor's degree, but no more than 20 hours.
After completing the prescribed set of coursework, students receive a graduate certificate rather than a degree. Completion of the certificate is indicated on the UNL graduate transcript.

Graduate certificate programs may function independently of degree programs. Hours earned in certificate programs may be applied to a degree program (p. 513).

**State Certifications for Educators**

Educator certifications — in particular, the Teaching Certificate (initial or renewal), Administrative Certificate (initial or renewal), and various endorsements — are granted by the State of Nebraska’s Department of Education (http://www.education.ne.gov/TCERT/) rather than by UNL.

For more information refer to Programs: Teacher Certification (https://catalog.unl.edu/graduate-professional/programs/teacher-cert/) or consult UNL’s certification officer (http://cehs.unl.edu/cehs/renewing-your-teaching-certification/).

**Educational Administration and Supervision**

The Department of Educational Administration offers a graduate-level administrator preparation program leading to a Certificate of Specialization in Educational Administration and Supervision (EDAS-SXCT). The minimum requirement is 66 semester credit hours, in a Program of Studies specified by the Department.

Requirements for the student:

1. Apply for admission as indicated for Educational Administration (http://www.unl.edu/gradstudies/prospective/programs/EducationalAdministration/), get and accept an offer of admission to the program, and enroll.
2. Complete certificate requirements within six consecutive calendar years of acceptance into the program. At the time of completion, none of the credit hours approved may be more than ten years old, except for hours earned in a previous degree program.
3. Apply for graduation via MyRED. Once all requirements are complete, the department will notify Graduate Studies so the student may receive the certificate through Graduation Services.

**Guidelines for Probation and Termination of Graduate Students**

The University of Nebraska-Lincoln (“UNL”) may modify these guidelines from time to time within its discretion, without prior notice, and shall be the sole determiner as to how these guidelines are interpreted.

**Basis for Taking Academic Action**

Graduate students at UNL are expected to maintain a high level of achievement in their graduate studies and to adhere to the Student Code of Conduct and all relevant policies. Accordingly, UNL reserves the right to act with respect to any graduate student who fails to maintain satisfactory progress or who violates any provision of the Student Code of Conduct or relevant policy. Such action may include, without limitation, placing the student on academic probation, suspending or terminating the student from a degree or certificate program, or precluding the student from pursuing any further graduate studies at UNL.

Academic action may be taken against a graduate student based on any of the following:

1. Violation of the Student Code of Conduct (https://studentconduct.unl.edu/student-code-conduct/) or any other UNL, college or departmental policy. A violation of the Student Code of Conduct may be used as a basis for terminating a student from a program only after the violation has been reported and properly confirmed;
2. Unsatisfactory academic performance, including failing to satisfy UNL’s Scholastic Grade Requirements (https://catalog.unl.edu/graduate-professional/registration/grades/); failing to pass qualifying examinations, preliminary examinations, comprehensive examinations or final degree examinations; failing to master the methodology and content of one’s field in a manner that is sufficient to successfully complete a thesis or dissertation; or
3. Failing to satisfy the requirements for the removal of probationary status or conditional admission.

Graduate Committees may adopt and impose additional conditions under which a graduate student may be subject to academic action, provided that such conditions are approved in advance by the Dean for Graduate Studies and are communicated in writing to all students who are subjected to those conditions. Graduate programs shall include any additional conditions in the program's governance documents.

A graduate student who is terminated from one degree or certificate program may apply to a different degree or certificate program, except when the termination is based on a violation of the Student Code of Conduct or when the student is precluded from pursuing any further graduate studies at UNL.

**Procedure for Academic Action**

Academic action taken against a graduate student is initiated by the department, school or interdepartmental Graduate Committee, whether acting alone or upon the recommendation of the student’s advisor or supervisory committee.

A recommendation to place a student on probation will be shared with the student and forwarded to the Dean for Graduate Studies, who will be responsible for making the final decision on the recommendation. Conditions of the probation will be communicated to the student in writing by the Dean for Graduate Studies.

A recommendation to terminate a student's degree or certificate program or preclude the student from pursuing any further graduate studies at UNL will be addressed in the following manner:

1. The Graduate Committee Chair will promptly inform the student in writing of the recommendation, the reason(s) given for the recommendation, and the name of the individual(s) making the recommendation.
2. The Graduate Committee Chair will provide the student with the opportunity to confer directly with the individual(s) making the recommendation through an in-person meeting or a telephone or video conference. The student will be given at least one-week advance notice of this meeting or conference.
3. The student will be granted the opportunity to respond to the recommendation verbally or in writing, or both, which will be documented and taken into consideration by the Graduate Committee Chair. The Graduate Committee Chair will consider any extenuating circumstances communicated by the student and will seek to determine whether the matter can be resolved.
4. After considering the student’s response, if the decision is made to proceed with the recommendation to terminate the student’s program
or preclude the student from pursuing any further graduate studies, the Graduate Committee Chair will inform both the student and the Dean for Graduate Studies of that decision in writing.

5. The Dean for Graduate Studies will investigate the matter and decide whether to proceed with terminating the student from a program or precluding that student from pursuing any further graduate studies at UNL.

6. If the Dean for Graduate Studies decides to proceed with terminating the student from a program or precluding that student from pursuing any further graduate studies at UNL, the Dean will inform the student of that decision in writing and advise the student of the right to appeal the decision.

**Appeal of Academic Action**

A graduate student who is terminated from a program or is precluded from pursuing further graduate studies as a result of a decision rendered by the Dean for Graduate Studies may appeal that decision to the UNL Graduate Council, which will serve as the appeals board.

1. To initiate an appeal, the student must submit a written request for an appeal to the Dean for Graduate Studies, who will act as the chair of the UNL Graduate Council, within thirty (30) calendar days after receiving the Dean’s decision. Although the Dean for Graduate Studies serves as the chair of the UNL Graduate Council, the Dean will not participate in deliberations leading to, nor vote on, the appeal decision of the UNL Graduate Council.

2. The affected student is responsible for submitting all information that the student wants the UNL Graduate Council to consider as part of the appeal. The written appeal must include the following:
   a. A full description of the basis on which the student is bringing the appeal;
   b. A full description of the remedy being sought by the student; and
   c. Copies of all documentation supporting the student’s appeal.

3. After taking into consideration all information and documentation submitted by the student in conjunction with the appeal, and taking into consideration the letter(s) recommending probation or termination, the UNL Graduate Council will render its decision. That decision will be communicated in writing to the student, the individual(s) who made the initial recommendation, and the Graduate Committee overseeing the student’s graduate program. In most cases, this decision will serve as the final decision.

**Appeals to the Executive Graduate Council**

In most cases, the decision of the UNL Graduate Council will be final. Only under special circumstances will the Executive Graduate Council hear an appeal from the decision of the UNL Graduate Council.

1. There is no absolute right of appeal to the Executive Graduate Council. The Executive Graduate Council will accept appeals only in those cases where in the exercise of its sole discretion it shall first find that one or more of the following grounds for accepting the appeal exist:
   a. That the UNL Graduate Council has violated some element of fair procedure (example: has failed to allow the parties concerned to present their cases fully to the UNL Graduate Council);
   b. That the UNL Graduate Council has failed to examine or give adequate weight to important evidence relevant to one party’s position;
   c. That the UNL Graduate Council has given undue weight to evidence not pertinent to the case; or
   d. That some gross miscarriage of justice would be perpetrated if the decision of the UNL Graduate Council is allowed to stand.

A decision by the Executive Graduate Council not to accept jurisdiction of an appeal shall be final and is not subject to further appeal.

1. Appeals to the Executive Graduate Council must be made in writing and must specifically outline the grounds for the appeal. Such appeal must be made within twenty (20) working days of the day the decision of the campus Graduate Council is received (working days shall not include those days the University is not in session).

2. The Executive Graduate Council must make a decision to hear the appeal or not to hear the appeal within thirty (30) working days after receipt of the appeal. Acceptance or denial of jurisdiction over the appeal will be made in writing.

3. The decision of the Executive Graduate Council on the merits of the case will be made and transmitted to the concerned parties within forty (40) working days after the decision to hear the appeal.

4. No person who was a member of the department or UNL Graduate Council involved in the case will be eligible to participate in the decisions of the Executive Graduate Council either to decide whether the case should be heard or to decide the merits of the case.

**Admission Eligibility Requirements**

Admission to the Office of Graduate Studies requires a complete application for admission. University of Nebraska Coursework: Former and current University of Nebraska students are not required to submit transcripts for prior NU coursework. The Office of Graduate Studies will obtain NU transcripts.

How to Submit Documents:

• Unofficial Documents: All transcripts and/or academic documents uploaded to the online application system are considered unofficial. Documents in a foreign language must also include certified English translations. An unofficial transcript printed from your current/previous institution(s) student system is not an acceptable document.

• Official Documents: Official academic records are required of all students who enroll and must be sent directly to The Office of Graduate Studies by the appropriate university officials at the student’s prior institution(s). Photocopies of certified documents are not considered official. Faxed documents, scanned documents, notarized photocopies, and copies made by translators or evaluation agencies are not considered official. An official transcript bears the original signature of the registrar and/or the original seal of the issuing institution. These documents may be mailed or delivered by the student in an envelope sealed by the issuing institutions registrar. The Office of Graduate Studies also accepts electronic transcripts from accredited U.S. colleges and universities sent via the National Student Clearinghouse, eSCRIP-SAFE, Docufide, Parchment Exchange or directly from the accredited U.S. college and university. The Office of Graduate Studies does not accept electronic transcripts from international colleges or universities. Documents in a foreign language must also include certified English translations.

Certified English Translation: International students must upload copies of all college or university level transcripts or mark sheets (records of courses and marks earned), with certificates, diplomas, and degrees earned plus certified English translations. Official documents are required from all students who are admitted and enroll. All degree certificates from Chinese institutions must be verified by the China Academic Degrees and Graduate Education Development Center (CDGDC). Documents in a foreign language must also include certified English translations.

Additional Requirements for International Applicants

English Proficiency:

• English Proficiency: Applicants to the Office of Graduate Studies whose native language is not English are required to submit a Test of English as a Foreign Language (TOEFL) score of at least 550 on the paper-based TOEFL; 79 on the Internet-based TOEFL or an International English Language Testing System (IELTS) overall band score of at least 6.5. Some departments require higher scores for admission. Non-native English speaking applicants who have received a baccalaureate or higher degree from a US university or a university outside the US in which English is the exclusive language of instruction are exempt from the English Proficiency requirement for admission. Completed degrees at an institution in an English-speaking country are not subject to English proficiency requirements. Applicants from U.S. Territories are exempt from the English Proficiency requirement.

• English Language Test (ELT): Each international student’s Letter of Admission will state whether they are required to take the ELT.

International Students who must take the ELT upon arrival to Lincoln:

• A TOEFL iBT writing score below 25 or a TOEFL total below 100
• An IELTS writing score or total IELTS score below 7.0

International Students who are exempt from taking the ELT upon arrival to Lincoln:

• Students whose native language is English
• Students who have earned a bachelor’s or higher degree from an institution at which English is the exclusive language of instruction
• Students who have earned a bachelor’s or higher degree from a country in which English is the official language.
• Students who have earned a bachelor’s or higher degree from an institution in a U.S. territory

• ENG 887: If the student’s ELT score is below 85, the student will be placed in ENGL 887, a 3-credit hour course to build English
communication skills, emphasizing writing essays and research papers. The cost of this course is at the student’s expense and will not count towards any plan of study. If the student’s ELT score is 85 or higher, the student is exempt from any further English language courses unless required by a departmental program.

• ITA: New holders of teaching assistantships (https://catalog.unl.edu/graduate-professional/graduate/funding/assistantships/) who are non-native speakers of English must attend the International Teaching Assistant Institute (http://www.unl.edu/gradstudies/current/ita/).

Proof of Financial Resources
To study at the University of Nebraska-Lincoln on an F-1 (student) or J-1 (exchange visitor) visa, you will need a Form I-20 or Form DS-2019 for the University for your visa interview and for entering the United States. Evidence of adequate financial resources (http://www.unl.edu/gradstudies/prospective/international/financial/) for tuition and living expenses is required of all admitted international students seeking F-1 or J-1 visas, including those who received their baccalaureate degrees at UNL. Students should not assume funds or work opportunities will be available at a later date and should be prepared to have their living and educational expenses increase annually. University-wide fellowships may be sought after one year of graduate study in the U.S.

Admission Categories
Degree
Applicants must submit an application, application fee, and unofficial transcripts from all post-secondary schools attended. If a student is admitted and enrolls, official transcripts are required to confirm receipt of a baccalaureate degree or higher. The student must also satisfy additional requirements the department specifies.

Graduate Certificate
Applicants must submit an application, application fee, and unofficial transcripts from all post-secondary schools attended. If a student is admitted and enrolls, official transcripts are required to confirm receipt of a baccalaureate degree or higher. The student must also satisfy additional requirements the department specifies.

Non-Degree
Non-degree, postbaccalaureate, teaching and administrative endorsement applications are reviewed by the Office of Graduate Studies upon receipt of an application, application fee, proof of English Proficiency and transcripts showing conferral of a baccalaureate or higher degree by the established deadline. If a student is admitted and enrolls, official transcripts and (if applicable, degree certificates) are required to confirm the receipt of a baccalaureate degree or higher.

Non-Degree Limitations: There are some limitations to a non-degree, post-baccalaureate admission:

• This admission category does not guarantee future admission to a graduate certificate, teaching and administrative endorsement, or degree program, nor does it guarantee that coursework completed as a non-degree student can later be applied toward a degree or certificate.
• Admission to a degree program must be gained prior to the accumulation of half the hours required for the degree sought.
• Students do not qualify for assistantships or fellowships;
• This admission category is not available to international students on F-1 student visas;
• This admission category may affect the student’s ability to receive federal financial aid; contact the Office of Scholarships and Financial Aid for more information.

Intercampus
Students already attending a University of Nebraska campus may take courses at another University of Nebraska campus while retaining their admission at their degree objective (home) campus by submitting the Request for Intercampus Enrollment (https://www.unl.edu/gradstudies/academics/intercampus/), subject to approval by both campuses.

Changes to Application or Admission

Departments may request this change by submitting an email to graduate@unl.edu prior to an admission recommendation being submitted to the Office of Graduate Studies.
• Post-Admission: An admitted student or department may request to change the entry term once per application for any of the three consecutive future terms (Fall, Spring, Summer). There is no guarantee of an offer of an assistantship if there is a request to change an entry term. Students who are admitted and do not have approval to change their entry term must reapply. International students who wish to change their entry term are required to provide updated financial information in order to receive a new I-20 or DS-2019. Entry term changes cannot be retroactive. ### Admission Decisions

#### Official Decision Notification

Acceptance for admission to a program leading to a master’s degree, a doctoral degree, an educational specialist degree or a certificate is determined by the Graduate Committee within the academic unit and the Dean for Graduate Studies. This decision is based upon the applicant’s record, experience, personal qualifications, and proposed area of study.

Departmental or area Graduate Committees make recommendations on all degree applications, but the final admission decision is the responsibility of the Dean for Graduate Studies. Admission is granted solely by Graduate Studies and is confirmed by the issuance of a Letter of Admission. The Office of Graduate Studies issues the official Letter of Admission, not departments. Academic departments will notify applicants concerning awards of financial assistance.

Negative admission decisions are not appealable.

### Admission Status

Admission status is determined and assigned by the Office of Graduate Studies, not departments.

- **Full Graduate Admission:** Having met all requirements for admission by the Office of Graduate Studies. ‘Full Graduate Admission’ is granted to students considered fully qualified to begin a program toward a graduate degree, certificate, or teaching endorsement for which they were admitted.

- **Conditional Graduate Admission:** Granted to students considered qualified to begin a program toward a graduate degree, certificate, or teaching endorsement for which they were admitted but have yet to meet all conditions of admission, as determined by the Office of Graduate Studies and specified in the Letter of Admission. Students admitted with “Conditional Graduate Admission” must satisfy all conditions of admission by the established deadline(s); failure to do so will result in admission revocation. “Conditional Graduate Admission” is changed to “Full Graduate Admission” when all conditions of admission have been met, as determined by the Office of Graduate Studies.

Students meeting all administrative requirements for admission according to the Office of Graduate Studies, but having some academic deficiencies, as determined by the academic department will be the responsibility of the department to ensure the student takes the necessary steps to complete courses and/or trainings on their graduate plan of study. Such deficiencies will not be monitored by the Office of Graduate Studies.

### Intent to Enroll

Students may choose to accept or decline their admission in the Applicant Portal, using the Decision Form. [https://go.unl.edu/gradappstatus](https://go.unl.edu/gradappstatus)

- **Accept Admission:** Accepting admission in the applicant portal makes the student eligible for enrollment.

- **Decline Admission:** The student’s decision to decline an offer of admission is a final decision and terminates the Letter of Admission.

The Graduate Faculty is composed of all faculty members in tenure leading positions, including pre-tenured faculty, who are automatically appointed as Graduate Faculty at the time of hire. Faculty members in non-tenure leading positions—including professors of practice, research professors and adjunct faculty—may be nominated for appointment to the Graduate Faculty. Full membership status lasts for the duration of the faculty member’s appointment with the University.

The Graduate Faculty may teach graduate courses, serve on final examining committees, serve on supervisory committees, and chair supervisory committees for both masters and doctoral students. The Graduate Faculty may vote on any matter presented to the Graduate Faculty, including the election of the University’s Graduate Faculty.
Council. They may also hold any elected office in the Graduate College. Graduate Faculty have the additional responsibility of voting on certain nominations of Graduate Faculty in their department, school or interdepartmental area program.

**Procedure for Nominating Graduate Faculty**

Faculty members in non-tenure leading positions may be nominated for membership to the Graduate Faculty. Nominees must meet the following criteria:

1. Hold the rank of senior lecturer, assistant professor (including practice, research and adjunct faculty) or above;
2. Hold the terminal degree normally accepted for academic employment in the discipline or its clear equivalent as determined by the Graduate Committee of the nominee’s department, school or interdepartmental area;
3. Be actively involved in scholarly activity and/or graduate teaching as part of his or her regular duties; and

A two-thirds majority of the Graduate Faculty must support the nomination. Submit the following to the UNL Dean of Graduate Education: (1) The nomination form with signatures and (2) a letter from the graduate committee chair explaining the reasons for supporting the nomination. After campus-level review, the nomination is forwarded to the Provost and Dean of the Graduate College (for the NU system), who will either approve or defer the nomination. If approved, the Provost/Dean formally appoints the faculty member to the Graduate Faculty.

Associates are not members of the Graduate Faculty and, therefore, do not have a vote on the Graduate Faculty, nor can they hold any elected office in the Graduate College.

**Procedure for Nominating Associates**

Faculty members in non-tenure leading positions may be nominated for Graduate Faculty Associate. Nominations must meet the following criteria:

1. Nominee shall have the terminal degree and the rank of assistant professor (including practice, research and adjunct faculty) or above;
2. Nomination is submitted within the first four years of the individual’s faculty appointment.

**Graduate Faculty Emeriti**

Upon recommendation of the departmental, school or interdepartmental graduate committee, retired Graduate Faculty who have been appointed to emeritus status may retain the rights and privileges associated with their Graduate Faculty status. These rights and privileges include permission to teach graduate courses, to serve as members of graduate programs, or to co-chair the supervisory committees of doctoral students with a resident Graduate Faculty member.

**Procedure for Recommending Graduate Faculty Emeriti**

Special Committee Members

Students may request the appointment of a faculty member from another institution outside the University of Nebraska system to serve on their supervisory committee. These external “special” members must hold a terminal degree appropriate to the discipline and have academic accomplishments comparable to the criteria for Graduate Faculty. Special Members are appointed as voting members of the supervisory committee and must be willing to participate in the student’s doctoral program in a manner consistent with this role. The Special Member may serve as one of the two appointed readers; but may not serve as committee chair, co-chair, or outside representative.

Procedure for Requesting Special Committee Members

Special Members are appointed on an individual student committee basis; a separate nomination must be submitted for each supervisory committee on which a Special Member intends to serve. In addition, only one Special Member may serve on each supervisory committee, and the committee must include a minimum of four members of the Graduate Faculty.

Using the request form for special members (https://www.unl.edu/gradstudies/current/Doctoral-SpecialCommitteeMember.pdf), the nomination must be endorsed by both the supervisory committee chair and the departmental graduate committee chair. Submit the following to the Dean of Graduate Education for approval: (1) The nomination form with signatures and (2) the nominee’s curriculum vitae.

Funding

Graduate Studies

Funding for graduate study is primarily in the form of assistantships (p. 505) and fellowships (p. 506). Additionally, the Office of Scholarships and Financial Aid maintains information on other forms of financial support such as loans and need-based funding (p. 507).

Assistantships

Graduate Studies

Intro

A graduate assistantship provides financial support for a graduate student for a set period of time during which the student is expected to pursue activities towards the advanced degree.

Time Required

Work required by an assistantship and not directly related to the student’s degree program cannot exceed 13-19.6 hours per week (.33 to .49 FTE).

Although students on graduate assistantships may not have employment exceeding 19.6 hours per week from all sources both on and off campus during the period of the assistantship, there is no limit to time spent on studies and research relating to the advanced degree.

Because of the potential for exploitation of graduate students, any assignment of responsibilities, such as teaching a course, must be associated with a fair and reasonable compensation. Graduate students may not volunteer for any significant service to the department without an appropriate stipend.

Types of Assistantships

In each case, the student is expected to continue working towards the advanced degree while a graduate assistant.

- A teaching assistantship provides a stipend to a student who is typically assisting in an academic department’s teaching program, i.e., grading, assisting a professor with a course, etc.
- A research assistantship provides a stipend to a student who is typically assisting a professor with a research project, enabling the graduate student to work towards an advanced degree.
- Other graduate assistantships provide a stipend to a student who is assisting an academic or nonacademic department with a wide variety of functions.

Eligibility

To hold a graduate assistantship a student must be admitted for a specific graduate degree objective and enrolled for credit during the tenure of the assistantship.

Individual departments make assistantship appointments. Students who wish to be considered for assistantships in their major should direct inquiries to the graduate chair of their department. All international graduate students who are to be teaching assistants at UNL must attend the Institute for International Teaching Assistants (http://www.unl.edu/gradstudies/current/ita/).

Benefits

Benefits Offered

Tuition remission of up to 12 hours per semester is provided as a benefit of eligible assistantships. Students holding eligible assistantships are provided basic individual student health insurance coverage with related benefits. The University subsidizes part of the student health insurance (http://www.unl.edu/gradstudies/current/health/) premium for eligible graduate assistants.

Within departments and within each level of differentiation (master’s or doctoral, new or experienced, number of work hours), stipends should generally be equivalent. Guidelines used to determine stipend levels should be available to students through the department.

Assistants may be given @unl.edu email addresses; those accounts close at the end of the assistantship.

Eligibility For Benefits

Eligibility for assistantship benefits requires meeting all of the following criteria:

- A continuous appointment for four full months within the semester dates.
- The stipend meets the minimum salary level set by the University.
- The assistantship or combination of assistantships in one or more departments totals at least 13.33 hours per week employment.

Resignation or Termination

If a graduate assistant resigns or their assistantship is terminated during the semester before four full months of consecutive service (e.g., 120 consecutive days within the semester dates, August-December or
January-May) all benefits will be lost and the student will be responsible for the total tuition payment and health insurance premiums.

**Summer Tuition**

If a graduate assistant, while on an appointment during both semesters of the preceding academic year, was paid a stipend meeting the minimum qualification for summer tuition, the student is not charged tuition for the first 6 hours during the summer sessions. If such a stipend met the next level of qualification, the student is not charged tuition for the first 12 hours during the summer sessions. (Specific dollar amounts are available each year in the Guidelines for Graduate Assistantships (http://www.unl.edu/gradstudies/facstaff/funding/).)

**Non-Benefits-Eligible Assistantships**

A student on a non-benefits-eligible graduate assistantship is charged tuition at resident rates if the stipend received is equal to, or greater than, the total of the amount set by the University for the relative summer session.

**Hiring and Renewal**

The responsibilities of the graduate assistant and the method by which the student will be evaluated should be provided in writing to the student by the immediate supervisor at the beginning of the assistantship.

**General Responsibilities**

Each department or unit shall establish its own documented procedures for recruitment, selection, retention and dismissal of graduate assistants in accordance with UNL graduate policy and Affirmative Action/Equal Opportunity guidelines. These procedures shall be made available to each graduate student and posted in the department. Individual departments may establish a required minimum course load (p. 514) for funded students.

Departments must provide students with an official signed offer letter (http://www.unl.edu/gradstudies/facstaff/funding/), informing them of assistantship expectations, responsibilities, and compensation. A graduate assistant's duties are assigned by the departmental chair/head, graduate committee chair, administrative supervisor, or others.

Graduate assistants are expected to be assigned relevant professional work that may include, among other tasks:

- teaching or assisting in a course (under the supervision of a director or mentor)
- grading for a course
- working in a department-sponsored laboratory or instructional center
- assisting a professor on a research project, professional conference development, tutoring, or development of administrative skills

No graduate assistant should be assigned to a project which is primarily clerical or housekeeping. A portion of any project may have clerical elements, but all projects should incorporate decision-making, judgment, analysis and evaluation skills. All projects must be supervised by a member of the graduate faculty or administrative staff.

**Renewal and Performance Evaluation**

Assistantships without a fixed term specified in the initial letter of offer may, at the discretion of the department, be renewed if the following criteria are met:

1. Funding is available.
2. The student is making satisfactory academic progress.
3. The student's assistantship performance is judged to be satisfactory by his or her supervisor.

Where the number of years of funding is within those specified in the initial letter of offer, an assistantship must be renewed if these three criteria are met.

The faculty member or staff person who supervises the assistant's work should conduct a timely written evaluation of the student's performance (http://www.unl.edu/gradstudies/facstaff/funding/#eval) and provide a copy of that evaluation to the student and to the chair/director for placement in the student's file.

Evaluations of performance shall not be influenced on the basis of sex, age, disability, race, color, religion, marital status, veteran's status, national or ethnic origin, or sexual orientation, nor shall they be influenced by students' exercise of their First Amendment freedoms of expression and association.

**Academic Freedom of GTAs**

The academic freedom of graduate teaching assistants (GTAs) is not necessarily coextensive with that of faculty. All GTAs are engaged in supervised teaching or instruction. Supervisors are responsible for defining the nature, scope and manner of instruction to be used for each course. Supervisors should communicate the extent to which GTAs have discretion to introduce additional material. Graduate teaching assistants should follow the instructions of the supervisor. Graduate teaching assistants may not be penalized for expressing their own views on matters within the scope of the course, provided they adequately represent these views as their own.

In interpreting teaching evaluations, supervisors shall make every effort to distinguish legitimate critiques of the course from negative evaluations due to

a. prejudice against the GTA on the basis of race, sex, sexual orientation, religion or other protected status, or
b. disagreement with viewpoints expressed by the GTA or by students in the class.

Fellowships are awarded on a competitive basis in recognition of a student's demonstrated scholarship, scholastic and creative promise, and/or financial need. There is no service or work requirement associated with fellowship awards. A student holding a fellowship or a traineeship must be a full-time student during the period of appointment.

See also: fellowships for current students (http://www.unl.edu/gradstudies/current/funding/fellowships/).

**Eligibility**

To be eligible for a fellowship a student must be admitted to a department or area with a specific graduate degree objective and enrolled in graduate academic coursework.

- Students enrolled in certificate-only programs with no degree objective are ineligible.
• International students must have completed one year of study at a US institution of higher education to be eligible.
• Employees of the University of Nebraska, other than graduate assistants, are ineligible.

Types of Fellowships
Tuition Fellowships remit tuition for the full or partial cost of graduate courses according to the specific fellowship guidelines for the term of the award. Recipients of tuition fellowships are responsible for university program and facilities fees unless specifically included in the award announcement. Recipients must be admitted to a graduate program with a specific graduate degree objective.

Full Support Fellowships from Graduate Studies (Presidential and Fling Fellowships) provide stipend payments for recipients of these awards. Fellowship recipients are required to be full-time students (at least 9 credit hours or full-time certification) during the period of appointment and may hold another major fellowship. They may not engage in remunerative employment, including a graduate assistantship or traineeship.

Partial Support Fellowships allow students to hold other fellowships and assistantships.

External Fellowships such as those from NSF-GRFP, AAUW, or the Smithsonian are not awarded by UNL but recipients should notify the Fellowship Specialist in Graduate Studies.

Continuation
Continuation of graduate fellowships may be denied to recipients under any of the following conditions:
• Failure to satisfy Scholastic Grade Requirements (p. 512).
• Violations of the Code of Conduct (p. 507).
• Failure in qualifying examinations, preliminary examinations, comprehensive examinations or failure to make satisfactory progress as defined by the graduate program.

Assistantship Impact
Fellowship awards cannot have any impact on the amount of a graduate assistantship stipend unless there is an accompanying decrease in the teaching or research assignment and the corresponding FTE.

Loans and Need-Based Funding
Graduate Studies

Scholarships and Financial Aid
The Office of Scholarships and Financial Aid (OSFA) (http://www.unl.edu/scholfa/) does not participate in the granting of fellowships or assistantships but does maintain current information on other forms of financial support available to students.

FAFSA
To apply for Federal Work-Study, Federal Perkins Loans, Federal Stafford Loans, or Unsubsidized Federal Stafford Loans, students submit a Free Application for Federal Student Aid (FAFSA) as early as possible.

Federal Perkins Loans and Federal Work-Study are awarded on a first-come, first-serve basis to domestic students with a completed financial aid file as long as funds are available. International students are ineligible to apply for federal loans.

To have a completed file, a student must:
1. Submit a FAFSA.
2. Be admitted to a degree program (contact OSFA for exceptions).
3. If coming to UNL as a transfer student or after attending another postsecondary school as an undergraduate, submit a financial aid transcript to OSFA from all schools attended. A financial aid transcript is required even if you did not receive financial aid.
4. Submit all documentation requested by OSFA as required for verification.

Satisfactory Progress
Satisfactory progress toward a degree is a requirement for receiving financial aid. Maintaining satisfactory progress requires:
1. successful completion of a minimum number of hours and
2. completion of the degree prior to reaching the maximum credit hour limit.

For details refer to the Office of Scholarships and Financial Aid: Satisfactory Academic Progress (http://financialaid.unl.edu/sap.shtml/).

**Sexual Harassment**

The University of Nebraska-Lincoln reaffirms that all women and men — administrators, faculty, staff, and students — are to be treated fairly and equally with dignity and respect. Any form of sexual harassment is prohibited.

Sexual harassment is unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of sexual nature when:

- submission to such conduct is made either explicitly or implicitly a term of condition of an individual’s employment or academic standing;
- submission to, or rejection of, such conduct by an individual is used as the basis for employment decisions or academic decisions affecting such individual, or
- such conduct has the purpose or effect of unreasonably interfering with an individual’s work or academic performance or creating an intimidating, hostile, or offensive working/academic environment.

Sexual harassment will not be condoned during the work or school day, nor will acts of sexual harassment be permitted outside the work or school environment if such acts affect the normal work environment or student/teacher relationship. UNL provides grievance procedures for violations of this policy. For further information, contact Institutional Equity and Compliance (http://www.unl.edu/equity/).

Appropriate corrective action will be taken in those instances where the foregoing policies have been violated. Any student or employee who is found to have violated any of the aforementioned policies will be subject to disciplinary action.

**Student Privacy**

Overseen by the Office of the University Registrar, directory information will be available to the public upon request and may be included in student directories published electronically and/or in hard copy. Students have the right to have directory information withheld from the public. See Directory Information (http://registrar.unl.edu/directory-information/) for details on which pieces of data are included and how to manage your privacy settings.

Beyond public directory information, the Family Educational Rights and Privacy Act (FERPA) (http://ferpa.unl.edu/) governs the release of student information.

**Governance**

**Graduate Studies**

Graduate studies at UNL are organized and conducted according to the rules and bylaws of the Graduate College of the University of Nebraska. The UNL Dean for Graduate Studies is responsible for coordinating and administering graduate-level programs and policies at the University of Nebraska-Lincoln. This Dean also maintains a close liaison relationship with the Executive Dean of the Graduate College of the University of Nebraska.

The governance of graduate programs that are principally lodged at UNL is by and through the graduate program committees and the UNL
Graduate Council, in accordance with the policies and regulations of the University-wide Graduate College. The UNL Graduate Council serves as an advisory body to the Dean for Graduate Studies. The Council is composed of eight Graduate Faculty and two graduate students from the University of Nebraska-Lincoln.

Guidelines for Good Practice in Graduate Education

Graduate Studies

Intro

For Faculty and Graduate Students

Graduate programs help to advance human knowledge, educate professionals, and resolve problems to address societal needs. Graduate faculty and graduate students have a joint responsibility to accomplish these goals. Each graduate student should develop an understanding of and capacity for scholarship, independent judgment, academic rigor, and intellectual honesty. Faculty and students must work together to create an atmosphere that ensures freedom of inquiry, fosters mutual respect, and demonstrates professional integrity.

Good practice in graduate education centers on responsible interactions between graduate students and graduate faculty, supported by college and department staff. The following guidelines are based on the collective experience and wisdom of the major research universities. These guidelines are intended to be constructive and instructive to faculty and graduate students; as such, they do not constitute statements of institutional policy or requirements.

Each category below provides information for students and faculty members on their individual roles and responsibilities.

Professionalism and Ethics

High quality graduate education depends upon the professional and ethical conduct of the participants. Faculty members and graduate students have complementary responsibilities in the maintenance of academic standards and the creation of high quality graduate programs. Excellence in graduate education is achieved when both faculty and students are highly motivated, possess the academic and professional backgrounds necessary to perform at the highest level, and are sincere in their desire to see each other succeed.

Graduate Student Role

- Take primary responsibility to inform themselves of the specific policies and procedures governing their graduate studies (p. 490) at the University of Nebraska-Lincoln.
- Interact with faculty, staff and other students in a mature, professional, and civil manner in accordance with University policies.
- Conduct the whole of one’s academic career with unwavering integrity.
- Talk with a trusted faculty member if there are concerns about integrity and ethics.
- Work with diverse faculty and peers regardless of their race, gender, religion, sexual orientation, or national origin.
- Exercise the highest integrity in taking examinations and in collecting, analyzing, and presenting research data.
- Participate in university, departmental, or program governance as a component of professional development.
- Participate in discipline-based activities, such as seminars and conferences, as a component of professional development.
- Manage time effectively for maximum professional development as well as personal health and well being, balancing competing demands such as being a student, a graduate assistant, a parent, a spouse, a caregiver, etc.
- Recognize that faculty and staff have many other professional responsibilities in addition to graduate education.

Faculty Role

- Inform themselves of the specific policies and procedures governing graduate studies (p. 490) at the University of Nebraska-Lincoln.
- Create an environment of the highest ethical standards and insist that students behave ethically in all their professional activities.
- Interact with students in a professional and civil manner in accordance with the University policies and relevant laws.
- Ensure a reasonable degree of confidentiality in communicating with students, taking care not to discuss a student’s performance, research results, or behavior with other students.
- Impartially evaluate student performance regardless of religion, race, gender, sexual orientation, nationality, or other criteria that are not germane to academic evaluation.
- Serve on graduate student committees without regard to the religion, race, gender, sexual orientation, or nationality of the graduate student candidate.
- Prevent personal rivalries with colleagues from interfering with their duties as graduate advisors, committee members, or colleagues.
- Excuse themselves from serving as advisors on graduate committees or supervising assistantship work when there is a familial or other relationship between the faculty member and the student that could result in a conflict of interest.
- Not impede a graduate student’s progress and completion of his/her degree in order to benefit from the student’s proficiency as a teaching or research assistant.
- Encourage students to learn creatively and independently respect the academic freedom of students to express opinions that may differ from those of faculty.
- Provide oral or written comments and evaluation of students’ work in a timely manner.
- Discuss laboratory and/or departmental authorship policy with graduate students before entering into collaborative projects.
- Ensure an absence of coercion with regard to the participation of graduate students as human research subjects in the faculty advisor’s research.
- Refrain from requesting students to do tasks unrelated to their academic or professional development for the personal advantage of a faculty member.
- Familiarize themselves with policies that affect their graduate students.

Teaching

No matter what career a graduate student enters after degree completion, experience in teaching will be useful; presentations, evaluation and assessment, leading discussions, and the like, are activities that take place not only in the academy, but in a wide range of business, industrial, and government settings. Teaching includes interactions with students about instructional issues, such as holding office hours, reviewing tests or paper scores/evaluations with students, answering questions
in special teaching centers in the discipline, tutoring, conducting labs, leading discussions, assisting students to solve problem sets, commenting on studio work, lecturing, or mentoring undergraduate researchers. Graduate students and faculty should work together to enhance student learning and promote the professional development of the graduate teaching assistant.

### Graduate Student Role

- Work cooperatively with supervising faculty and other teaching assistants to accomplish the tasks set out by the TA assignment.
- Give adequate attention to the teaching role by conscientious efforts in planning, preparing, and implementing TA assignments.
- Achieve an appropriate balance between teaching responsibilities and other essential activities.
- Take advantage of orientation and training opportunities offered as professional development; use the library and other services provided by Graduate Studies on teaching and learning.
- Proactively seek varied teaching opportunities.
- Engage in reflective evaluation of teaching activities.

### Faculty Role

- Provide adequate training for teaching assistants appropriate for the responsibilities they will assume; in some cases training may be available through campus-wide or department training programs.
- Provide appropriate communication with and mentorship for teaching assistants to enhance their professional development and to ensure the quality of student learning.
- Develop a clear understanding with graduate students about their specific TA responsibilities, including division of authority and labor, expectations for performance, and the like.
- Observe the student's teaching to provide feedback on, and assistance for, current activities and recommendations for the student's future employment.
- Identify appropriate departmental and campus resources to assist graduate students in their professional development as teaching scholars.
- Foster opportunities for students to attain teaching competence.

### Research

A student's academic performance and a faculty member's scholarly interest may coincide during the course of instruction and research/creative activity/performance. As the faculty-graduate student relationship matures and intensifies, direct collaborations may involve the sharing of authorship or rights to intellectual property developed in research or other creative activity. Such collaborations are encouraged and are a desired outcome of the mentoring process.

### Graduate Student Role

- Learn the research methods, ethical dimensions, and historical knowledge bases of the discipline.
- Abide by the University's policy on research misconduct. This policy applies to researchers in all disciplines.
- Recognize that the faculty advisor, in nearly every case, will determine when a body of work is ready for publication and what is an acceptable venue, since the faculty advisor bears responsibility for overseeing students' performance and ensuring the validity of the research.
- Recognize that the faculty advisor provides the intellectual and instructional environment in which the student conducts research, and may, through access to teaching and research funds, also provide the student with financial support.
- Maintain absolute integrity in collecting, analyzing, and presenting research data.
- Preserve the data collected during experiments or noted during research (with precise identification of sources) to avoid future confusion or disputes about access or ownership.
- Acknowledging the contributions of the faculty advisor and other members of the research team to the student's work in all publications and conference presentations. (It is also appropriate to acknowledge the sources of financial support).
- Expect that their research results, with appropriate recognition, may be incorporated into progress reports, summary documents, applications for continuation of funding, and similar documents authored by the faculty advisor, to the extent that the student's research is related to the faculty's research program and the grants which support that research.
- Recognize that the faculty advisor is responsible for monitoring the accuracy, validity, and integrity of the student's research. Careful, well-conceived research reflects favorably on the student, the faculty advisor, and the University of Nebraska.
- Maintain the confidentiality of the faculty advisor's professional activities and research prior to presentation or publication, in accordance with existing practices and policies of the discipline.

### Advising and Mentoring

The relationship between the graduate student and their graduate faculty supervisor is central to excellent graduate education. Graduate students develop best in a closely monitored environment in which the faculty provide both high expectations and high support.

Graduate student progress toward educational goals at the University of Nebraska is directed and evaluated by a graduate faculty advisor, the relevant graduate committee, and the student’s supervisory committee. The advisor and the individuals on the committee provide intellectual guidance in support of the scholarly/creative activities of graduate students. The advisor, the supervisory committee, and the graduate committee also are charged with the responsibility of evaluating a graduate student’s performance in scholarly/creative activities. The graduate student, the advisor, the supervisory committee, and the graduate committee comprise the basic unit of graduate education at UNL. It is the quality, breadth, and depth of interaction within this unit that largely determines the outcome of the graduate experience.
Graduate Student Role

- Devote an appropriate amount of time and energy toward achieving academic excellence and earning the advanced degree.
- Recognize time constraints and other demands imposed on faculty members and program staff.
- Initiate regular communications with faculty advisors, especially in matters related to research and progress within the graduate program.

Faculty Role

- Provide clear maps of the requirements each student must meet, including course work, languages, research tools, examinations, and thesis or dissertation, and delineate the amount of time expected to complete each step. A graduate student handbook, including written documentation of departmental policies, program requirements and expectations for satisfactory performance can serve this purpose.
- Evaluate student progress and performance in regular and informative ways consistent with the practice of the field; offer fair opportunities for students to correct deficiencies in their work.
- Set aside adequate time to meet with students.
- Help students develop artistic, interpretive, writing, oral, and quantitative skills, in accordance with the expectations of the discipline.
- Assist graduate students in the development of grant writing skills, where appropriate.
- Take reasonable measures to ensure that each graduate student initiates a thesis or dissertation research in a timely manner.
- When appropriate, encourage graduate students to participate in professional meetings or perform or display their work in public settings.
- Create an ethos of collegiality so that learning takes place within a community of scholars.
- Provide a realistic view of the field and the current job market and make use of professional contacts for the benefit of their students, as appropriate.

Registration

Graduate Studies

General

Procedures and dates pertaining to registration are provided by the Office of the University Registrar (http://registrar.unl.edu/) and the Academic Calendar (http://registrar.unl.edu/academic-calendar/). Additional questions concerning graduate-level registration may be referred to Graduate Studies.

Drop and Add

Students may drop or add classes from the beginning of priority registration through the last day on which classes may be added for a term, as published in the Academic Calendar (http://registrar.unl.edu/academic-calendar/).

- Students who do not register for classes until after the beginning of the term will be charged a late registration fee.
- After the end of the add period, a course may be added to a student's record only with permission from the instructor and Graduate Studies.
- Tuition liability for a course begins after the add period for a term.

Impacts of Withdrawal

Before withdrawing from courses, some students should seek information on the ramifications of withdrawal:

- Graduate assistants should contact their department Graduate Chair.
- Students withdrawing after the term's last day to add classes should contact the Office of Scholarships and Financial Aid (http://financialaid.unl.edu/) about potential impacts on eligibility for aid or loan deferral.
- International students should consult the International Student and Scholar Office (http://iss.s.unl.edu/).

All courses dropped after the second week of the term are noted on the student’s academic record (transcript) with a grade of “W” (withdrawn).

Timing of Withdrawal

Before the 3/4 point of the term, students may withdraw from classes regardless of circumstance. A course drop becomes effective for tuition and grade purposes on the date the transaction is processed by the student.

After the 3/4 point of the term, any withdrawal from classes must be for extraordinary circumstances and will be granted only by petition through Graduate Studies, based on the following documentation:

1. A written request from the student within 60 days of the end of the term.
2. Written permission from the instructor.
3. Documentation for illness, death in the family or abrupt change in work schedule.

Download: Petition for late withdrawal (https://www.unl.edu/gradstudies/docs/petition_for_late_withdrawal.pdf)

Correction of Registration Errors

A graduate student who has registered in error (for example, for the undergraduate level of a 400/800 course) should correct the error through the normal drop and add process during the term in which the error occurred.

In the event the error is not recognized until a grade is posted, the student may request correction of registration within sixty days of the posting of the grade to the Office of the University Registrar (http://registrar.unl.edu/). Changes to a student registration record will not be made more than sixty days after grades are posted.
Auditing a Course

Auditing gives a student the privilege of attending class, but credit is not earned and a grade of AU is assigned when auditing a class. All persons wishing to audit a course must be admitted and eligible to enroll in classes for the term in which they audit. Tuition and fees for audited courses are the same as for graded courses. Audited courses cannot be applied toward a graduate degree or certificate.

To audit a course:

1. Register for the class online.
2. Pick up a Permit to Audit Card at the Office of the University Registrar (http://registrar.unl.edu/).
3. Obtain the instructor’s permission to audit the course by having him or her sign the Permit to Audit Card.
4. Turn in the signed Permit to Audit Card at the Office of the University Registrar no later than the last day to add a class for the term.

Academic Leave Policy

A student who is unable to continue their graduate studies may request an academic leave to temporarily suspend their pursuit of a graduate degree. An academic leave may be granted for a degree-seeking graduate student who is in good standing and has completed at least one semester of prior graduate enrollment at UNL. An academic leave may be requested for illness or injury; to provide care or assistance for immediate family and/or dependents; to meet military service obligations; or for other personal reasons.

It is the student’s responsibility to consult the Office of Scholarships and Financial Aid and, if applicable, the International Student and Scholar Office (ISSO) before applying for an academic leave. A student on leave does not receive the benefits, services, and eligibility associated with registered student status.

Conditions

1. Students may request an academic leave for one or two semesters (excluding summer term). The duration of leave may be extended only by the number of semesters that have been approved for leave.
   a. Students are not permitted to register for any credit hours for the period covered by the academic leave. If already registered during the leave, students must officially withdraw from those courses.
   b. No tuition or fees are assessed during the leave.
   c. The time limit for completing the doctoral or master's degree is extended only by the number of semesters that have been approved for leave.
   d. For doctoral students in candidacy, an approved leave satisfies the continuous enrollment requirement (https://catalog.unl.edu/graduate-professional/graduate/degrees/doctoral/#candidacy).
   e. Students may not take comprehensive or qualifying examinations for advancement to candidacy or final examinations for the degree (although language competency examinations are allowed).
   f. Students may not file a thesis or dissertation.

   g. Students may not receive academic credit for work done at another institution during the leave.
   h. Students are not eligible for graduate assistantships or fellowships while on academic leave.

3. Students returning from an approved leave do not need to reapply or be readmitted. The Office of Graduate Studies will automatically change the student’s record to “active” status at the end of the academic leave.

Requesting a Leave

Upon receipt of an Academic Leave Request form (https://www.unl.edu/gradstudies/academics/academic-leave/), the request will be reviewed by the Dean for Graduate Studies. If approved, an email notification will be sent to the student, graduate chair, faculty advisor, and department office.

Requesting an Extension of an Approved Leave

Only under special circumstances will an extension of an approved leave be considered. To request an extension, students must submit an Extension Request (https://www.unl.edu/gradstudies/academics/academic-leave/) to the Office of Graduate Studies prior to the end of the semester in which the leave terminates. As with the original leave request, it is the student’s responsibility to consult the Office of Scholarships and Financial Aid and, if applicable, ISSO before applying for extension of a current leave. The request will be reviewed by the Dean for Graduate Studies. If approved, an email notification will be sent to the student, graduate chair, faculty advisor, and department office.

Grades (Including In Progress and Incomplete)

Graduate Studies

Grading System

The University uses an A through F grading system.

- Letter grades with point value:
  - A+ (4.0), A (4.0), A- (3.67)
  - B+ (3.33), B (3.0), B- (2.67)
  - C+ (2.33), C (2.0), C- (1.67)
  - D+ (1.33), D (1.0), D- (0.67)
  - F (0)
- Grades without point value:
  - W (dropped/withdrew)
  - I (incomplete), IP (in progress), XP (no progress)
  - P (pass/C or better), N (no pass)

Graduate students taking undergraduate classes for deficiencies generally have a grade requirement set by the department. However, if no specific standard has been set, the graduate student is required to meet the same standard an undergraduate would be held to. That is, if the class is taken Pass/No pass, pass is the equivalent of a C or better.

Scholastic Grade Requirements

Credit in graduate-level courses is attained as follows:

- Within the student’s major department or area, for 800-level courses with 400 or lower counterparts:
In Progress vs. Incomplete

IP and XP: For research, thesis, and dissertation hours

- **In Progress (IP)** indicates satisfactory work in progress. The student is making progress or effort as determined by the faculty supervisor (research effort, literature review, draft chapters, etc.).
- The IP stands until successful defense and acceptance of the research project, thesis, or dissertation, when a P or letter grade is submitted.

- **No Progress (XP)** indicates lack of adequate progress.
- Because XP is not used in GPA calculation, no direct academic sanction (such as academic dismissal from the University) will be imposed for earning one or more XP grades. However, graduate programs may use a series of XP grades as a basis for terminating a student from the program. Graduate committees should define these criteria, document them in graduate student handbooks, and discuss the process with their students.

On a transcript IP and XP count toward attempted hours, but for Financial Aid they count differently. Any IP or XP grades remaining at graduation will convert to I, if not graded as P or with a letter grade.

Use of IP and XP instead of I for graduate research, thesis, and dissertation hours is recommended by the UNL Graduate Council as of October 9, 2014. The I grade impacts satisfactory academic progress (SAP) (http://financialaid.unl.edu/sap.shtml/) assessments in ways that can result in a student’s federal financial aid being suspended, while IP and XP differentiate whether progress is being made, enabling more appropriate assessment and avoiding unnecessary aid suspensions and appeals.

I: For any other courses/hours

The grade of Incomplete (I) should be used only for courses that are not graduate research, thesis, or dissertation hours.

For any I grade in a graduate course, the instructor of the course determines the requirements and deadlines for completing it. It is helpful to have these expectations in writing to prevent miscommunication.

- A student with a grade of I should not re-register for that course within the time frame for the removal of the I. Re-registration will incur new tuition charges.
- If the instructor leaves the University prior to the date set for the completion of a course, the chair of the academic department of the course will assume the role of the instructor.

When requirements are satisfied, the instructor replaces the I with a grade indicating completion. Some courses must become graded (not I).

- All Incomplete courses on the Memorandum of Courses or Program of Study must become graded prior to graduation.
- Graduate courses not on the Memorandum or Program and not to be used to complete the degree may remain I. The grade of I will be on the transcript but will not affect the GPA.
- Undergraduate courses receiving an I will lapse into the grade of F after one calendar year.

Grade Appeals

Appeal of grades in graduate-level courses shall be made through the graduate student grade appeal procedures for the campus through which the grade was awarded.

- Students who believe their evaluation in a course has been prejudiced or capricious must first attempt to resolve the matter with the Course Instructor within 30 days of the posting of the grade report by the Office of the University Registrar.
- If unsuccessful, the student may then file a written appeal to the Graduate Chair for consideration by the Graduate Committee responsible for the administration of the course. This appeal must be filed within 60 days of the posting of the grade report by the Office of the University Registrar. If the department does not have a graduate program, the standing grade appeal committee of the department would consider the appeal. A written determination of the appeal shall be presented to the student and instructor.
- If the matter is unduly delayed or not resolved, the student may present the original appeal documentation to the Dean of Graduate Education who shall request a review by a subcommittee of the Graduate Council. A final appeal may be made to the full Graduate Council, if it agrees to hear the case. Since awarding grades in courses occurs at the individual campus level, the decision of the Graduate Council shall be final and is not subject to further appeal beyond the campus.
- If the instructor’s grade is overturned, the instructor of record has the right of appeal, in writing, at the same successive levels of review.

Graduate Credit

Graduate Studies

Course Levels

Courses by number level:

- 800s and 900s: These are graduate courses. 800-level courses without counterpart 400-level or lower numbers, as well as 900-level courses, are open exclusively to graduate students except by permission of the Dean for Graduate Studies.
- 500s, 600s, and 700s: These are professional courses in law, dentistry, and architecture. Law courses carry graduate credit only if the letter “G” follows the course number.
- 400 or lower: These are undergraduate courses and cannot be applied toward a graduate degree.

A student who enrolls in a course must have completed the general prerequisite, including any specific prerequisite indicated for the course. In graduate-level courses, there is a required differentiation of faculty...
expectation regarding course work, student performance and grading criteria. In 800-level courses with an undergraduate-level counterpart, each of these differentiated expectations must be described in the course syllabus.

Credit by Examination
Credit by examination cannot be earned in graduate-level courses or applied to graduate degree programs.

Transfer Credit
For any graduate degree, at least 50 percent of the minimum number of graduate credits required for the degree must be completed at the University of Nebraska.

To be accepted as transfer credits, graduate credits must be:

- Earned at an institution fully accredited to offer graduate work in the field of the student’s major.
- For graduate coursework, not professional coursework.
- To be accepted toward a master’s degree: Not older than 10 years or applied toward any previous graduate degree.
- To be accepted toward a doctoral degree: Not applied toward any previously completed doctoral degree.
- Approved by the graduate committee for quality, suitability, and being equal to or superior to offerings available at UNL.
- Approved by Graduate Studies.

It is the responsibility of the student to ensure that official transcripts of graduate work taken elsewhere are received by Graduate Studies well before the student plans to complete all other requirements for the UNL degree.

Graduate Credit for Undergraduates
Seniors at UNL may be permitted up to 12 hours of credit for graduate courses taken in addition to the courses necessary for their undergraduate degree, provided that these credits are earned the calendar year prior to receipt of the baccalaureate. Holding graduate credit keeps a senior in an undergraduate college; the student should consult Scholarships and Financial Aid (http://financialaid.unl.edu/) regarding continuation of any undergraduate scholarships or financial aid.

- Before registering for graduate courses, seniors must obtain approval from Graduate Studies using the Grad Credit for Undergraduate Students form (http://research.unl.edu/gradstudies/credit/).
- Courses taken prior to completion of a bachelor’s degree do not always transfer as graduate credit to other institutions, nor can there be a guarantee from Graduate Studies that these courses will apply toward a particular graduate program.
- The general prerequisite for taking 800-level courses as an undergraduate is at least 12 hours of work in the same department or area of study. The general prerequisite for 900-level courses is at least 18 hours in the same department or area of study.
- Intercampus enrollment allows undergraduates at other University of Nebraska campuses to take graduate-level coursework at UNL. Any arrangement to hold for graduate credit must be made at the student’s bachelor’s-degree campus; UNL can certify graduate credit only for those students graduating from UNL. Students from outside the University of Nebraska must wait until they qualify as graduate students to receive graduate credit.

Access to Services
Registration is required for services such as door access, the Recreation Center, the University Health Center, and some Library resources.

Students who pay the University Health Center (UHC) fee are able to access reduced-cost healthcare services at the UHC. Students enrolled in less than 7 cr per term pay a reduced University Program and Facilities Fee (UPFF) that does not include the UHC fee; to use the UHC they may pay the UHC fee or procure UHC services on a fee-for-service basis.

Doctoral Candidacy
Doctoral students who have advanced to candidacy status must be registered every fall and spring semester until they graduate, in accordance with the Guidelines for Registration During Doctoral Candidacy (p. 494). Failure to maintain registration may result in the termination of the student’s program.

Full-Time Status

Hour Requirements
Graduate students are considered full time when registered for 9 credit hours during an academic semester or at least 6 credit hours during the summer.

Full-Time Certification
Thesis-option master’s students (Option I) (p. 496) and doctoral students in candidacy may request full-time certification (http://research.unl.edu/gradstudies/fulltime/) each semester they are under-enrolled, for the time allowed for their degree.
• Eligibility. The student must be currently registered for at least one credit hour and have been registered at least half time (i.e., at least 4 credits) in the fall and spring terms prior to the initiation of the full-time certification status.

• Limitations: Master’s students may use full-time certification no longer than 3 consecutive terms; doctoral candidates may use it no longer than 24 consecutive months.

**Summer Assistantship**

Graduate assistants are not required to register for courses during the summer term. Graduate assistants employed in the summer but who are not registered for 4 credit hours or certified full-time during the summer term are subject to FICA and Medicare taxes.

**Financial Aid**

<td>4-5 cr</td>
</tr>
</tbody>
</table>

Summer minimum registration for financial aid is 4 credit hours. These credits may be in different summer sessions; aid is disbursed in the session the student reaches half-time enrollment.

**Employment**

Graduate students holding any fellowship(s) are required to be enrolled as a full-time student as defined above. Students with external or departmental fellowships must follow the specific granting agency requirements.

Graduate students holding a traineeship are required to be enrolled full-time or be full-time certified during the tenure of their traineeship. Other remunerative employment must follow the granting agency requirements.

Graduate assistants may not work more than 19.6 hours per week, all jobs considered, including assistantship(s) and paid internships. Internships are considered work in a training environment related to the student’s educational career for which they receive pay; an assistantship and an internship may not be held by a student simultaneously if the total hours between the two equal more than 19.6 hours per week. This applies to fall and spring terms only.

Graduate students not employed, or graduate research assistants performing duties that are 100% thesis related, may register for a maximum of 15 credit hours during an academic year semester, 6 credit hours during one five-week summer session, 9 credit hours during one eight-week summer session, or 3 credit hours during the pre-session.

**Maximum Registration Guidelines**

Graduate students who are employed are advised not to exceed the following registration guidelines established by the Graduate Council.

<table>
<thead>
<tr>
<th>Hours Employed Per Week</th>
<th>Fall or Spring 8-Week</th>
<th>Summer 5-Week</th>
<th>Summer 3-Week(1)</th>

</tbody>
</table>

1 One course permitted in the Summer 3-Week term for a maximum of 3 credit hours.

These guidelines reflect the fact that graduate-level course work serves mainly as a guide for independent, scholarly study. Graduate students are expected to master subjects and to devote substantial time in independent library and laboratory investigation beyond minimum credit hour requirements.

For courses offered within a summer session, a general guideline is a maximum registration of 1 credit hour per week of instruction.

**Tuition and Fees**

**Rates**

Tuition and fee rates are published by Student Accounts (http://studentaccounts.unl.edu/) and subject to change at the direction of the Board of Regents.

Regulations pertaining to Nebraska resident status for tuition purposes are established by the Board of Regents. Initial determination of resident status is made at the time of admission and is noted on the Certificate of Admission. If a non-resident student wishes to change status, it is necessary to file a residency application with Graduate Studies. Requirements for resident status are included with the Application for Residency Classification for Tuition Purposes (PDF) (http://go.unl.edu/residency/).

**Refunds**

Students who withdraw from the University within the first four weeks of a semester, or within the first two weeks of a summer session, may be entitled to a fractional refund of tuition, as listed in the Academic Calendar (http://registrar.unl.edu/academic-calendar/). The conditions of eligibility for refunds are subject to change.

**Graduate Assistants**

Students holding a benefits-eligible graduate assistantship (p. 505) may receive tuition remission of up to 12 hours per semester during the fall and/or spring semesters plus a portion of the student’s health insurance premium.

• Payment of the student’s portion of the health insurance premium, University program and facilities fees, library fees, technology fees, registration fees, special course fees, are the student’s responsibility.

• If a graduate assistant resigns or terminates the assistantship during the semester before four full months of service, all benefits will be lost. The student then is responsible for the total tuition payment and health insurance premiums.

**University Staff Scholarship**

Members of the academic-administrative, managerial-professional, and office-service staffs employed full time are eligible for the Employee and Dependent Scholarship Program (http://hr.unl.edu/general/dependentscholarship.shtml/).
