Welcome, 2019 McNair Cohort!

Maha Albasheer is a biochemistry major from Lincoln, Nebraska and will be working with Dr. Mark Wilson, Department of Biochemistry.

Miguel Avila Garcia is a fisheries/wildlife & environmental science major from Bellevue, Nebraska and will be working with Dr. Dennis Ferraro, Natural Resources.

Zoe Erickson is a biochemistry major from Blair, Nebraska and will be working with Dr. Srivatsan Kidambi, Chemical & Biomolecular Engineering.

Amyia Harris is a psychology major from Omaha, Nebraska and is conducting research with Dr. Jenna Finch, Department of Psychology.

Miguel Avila Garcia is a fisheries/wildlife & environmental science major from Bellevue, Nebraska and will be working with Dr. Dennis Ferraro, Natural Resources.

Zoe Erickson is a biochemistry major from Blair, Nebraska and will be working with Dr. Srivatsan Kidambi, Chemical & Biomolecular Engineering.

Amyia Harris is a psychology major from Omaha, Nebraska and is conducting research with Dr. Jenna Finch, Department of Psychology.
During the McNair Summer Research Experience (MSRE), Scholars have the opportunity to explore their research topic under the guidance of a faculty mentor and to develop skills critical for success in graduate school. After successfully completing their MSRE projects, we ask the Scholars to reflect on what it means to be a McNair Scholar, as well as on their summer research experience and presenting at the National McNair Scholars Conference at UCLA. A sample of their remarks are included on the following pages.

“I’ve taken advantage of the opportunities presented through my research experience to cultivate the skills that aren’t readily accessed in the classroom. To be a scholar means recognizing that ‘I get out what I put in.’ As a result, I’ve taken more seriously my personal responsibility in planning my graduate career, including taking the initiative to network and inform my decisions along the way.” – Aleece Barnard

“This program has not only given me the tools to become a scholar but has also given me a better understanding of what a scholar means. To be a scholar is not just entirely about grades. It’s about having that drive and the quest for knowledge and an understanding of topics in order to create change that would significantly contribute to society, especially for underrepresented groups.” – Baudelio Abrica

“MSRE prepared me in the best way to accomplish the minor and major milestones for my research project. Though I doubted myself numerous times, I accepted the challenges and began to set daily goals to accomplish. My growth as a researcher progressed and I take pride in what I have accomplished as a McNair Scholar.” – My-Linh Luc

“There are a lot of ups and downs when it comes to research, however, if you keep your head up you can be successful with your research project. I learned a lot about myself this summer. The first being that research, specifically research that is close to me might be difficult to talk about. However, my research benefited people in communities with need, and I thought that was a great accomplishment.” – Nestor Hernandez
Thank you to all of the faculty, postdoctoral, and graduate student mentors who contributed their time and expertise to work with McNair Scholars during the 2019 McNair Summer Research Experience and who continue to support the Scholars’ research and graduate application efforts. Your support is invaluable to the success of our program!
Congratulations to December 2019 McNair Grad!

Aleece Barnard, from Colorado Springs, Colorado, earned her bachelor’s degree in Civil Engineering in December 2019. She conducted her McNair research project with Dr. Christine Wittich from the Department of Civil Engineering on simulations of precarious rock systems to understand seismic hazards. Aleece has accepted an internship at Black & Veatch in Overland Park, Kansas and is looking forward to entering graduate school in Fall 2020.

Scholars Awarded 2019-20 Research Grants

For the 2019-20 Academic Year, 10 UNL McNair Scholars received research funding from the Undergraduate Creative Activities and Research Experiences (UCARE) Program, as well as from the National Strategic Research Institute, and other departmental funding such as Undergraduate Sociology Teaching and Research (USTARS).

The McNair Graduate Student and Postdoctoral Mentoring Program offers our UNL McNair Scholars a supportive community, as well as advice, insight, and encouragement as they conduct research and prepare to enter graduate school. In turn, it offers our mentors a chance to gain experience mentoring a rising scholar associated with one of the nationally-recognized Department of Education TRIO programs.

We'd like to welcome the 2019-20 McNair postdoctoral and graduate student mentors! They include: Donna Chen, child, youth, and family studies; Mengzhu Fu, psychology; Ben Hage, biological systems engineering; and Amanda Miller, chemistry.

They join continuing graduate mentors: Jenn Andersen, sociology; Safiya Beckford, nutrition & health sciences; Marc Lussier, computer science & engineering; Alexandra Martin, nutrition & health sciences; Behrooz Motealleh, chemical & biomolecular engineering; Chaise Murphy, nutrition & health sciences; and Vincent Perez, biochemistry.

Alumni Awards, Publications, & Presentations

Alumni Awards

Jazmin Castillo (McNair Scholar 2015–17) received the School of Natural Resources 2019 Meritorious Graduate Student Award.

Nathan Palmer, Ph.D. (McNair Scholar 2004-2006) received the Georgia Southern University College of Behavioral and Social Sciences Award of Distinction in Teaching in Fall 2019. Dr. Palmer is an assistant professor of sociology at Georgia Southern University.

Alumni Publications

Conference Presentations

McNair Scholars disseminated their research findings at local, regional, and national conferences during Summer and Fall 2019.

Congratulations to these UNL McNair alumni who earned advanced degrees in August and December 2019!

Doctoral degrees

Michelle Haikalis, Ph.D. (McNair Scholar 2009-12) earned a master's degree in clinical psychology in May 2014 from the University of Nebraska–Lincoln and earned a Ph.D. in clinical psychology from UNL in August 2019. Dr. Haikalis is currently a NIAAA T32 postdoctoral fellow at the Brown University Center for Alcohol and Addictions.

Zachary Garfield, Ph.D. (McNair Scholar 2009-12) earned a master's degree in anthropology from Washington State University (WSU) in May 2015 and a Ph.D. in anthropology from WSU in August 2019. Dr. Garfield is a postdoctoral research fellow at The Institute for Advanced Study in Toulouse, France.

Jason Thomas, Ph.D. (McNair Scholar 2012-14) earned a Ph.D. in plant and microbial biology from the University of Minnesota in December 2019.

Master's and Specialist degrees

Kaylor Caldwell (McNair Scholar 2013-2015) earned a master's degree in counseling psychology from the University of Missouri-Kansas City in December 2019 and is pursuing a Ph.D. in counseling psychology at the University of Missouri-Kansas City.

Janeigh Castillo-Barraza (McNair Scholar 2012-2014) earned a master’s of education in May 2018 from the University of Georgia (UGA) and earned an Ed.S. degree from UGA in August 2019. Janeigh is a school psychologist at Gwinnett County Public Schools in Suwanee, Georgia.

Brianna McKay (McNair Scholar 2015-2017) earned a master’s degree in nutrition & health sciences from the University of Nebraska–Lincoln in August 2019. Brianna is enrolled in the master of physician assistant studies program at Creighton University.

Kimberly Ruiz (McNair Scholar 2015-2017) earned a master's degree in marriage and family therapy from the University of Nebraska–Lincoln in August 2019. Kim is the Senior Assistant Director–Wellness Counselor for the University of Nebraska–Lincoln Nebraska College Preparatory Academy.

MaLeaha Semerad (McNair Scholar 2015-2017) earned a master's degree in marriage and family therapy from the University of Nebraska–Lincoln in August 2019. MaLeaha is a mental health therapist at Capstone Behavioral Health in Fremont, Nebraska.

McNair Scholars & Alumni: The McNair Scholars Program will be celebrating 25 years at UNL in 2020. If you would like to share any McNair memories or photos in the next newsletter, on social media, and/or on the McNair website, we encourage you to send those to Carol Boehler, cboehler2@unl.edu.
