

# GRADUATE PROGRAM

## DEPARTMENT OF PHYSICS AND ASTRONOMY

### UNIVERSITY OF NEBRASKA-LINCOLN

Jorgensen Hall, the department's  
new home since 2010

Do world-class research in physics at the University of Nebraska-Lincoln while living in a vibrant, safe midwestern city of nearly 300,000 residents known for high quality of life and rental affordability.

#### Research Areas

- Atomic, molecular, and optical physics
- Plasma physics
- Condensed matter physics
- Materials and nanoscience
- High-energy physics

#### Department at a Glance

**29** faculty members

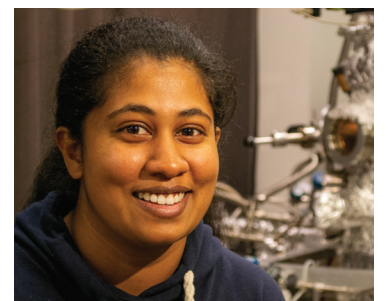

**85** graduate students

**66** PhD's awarded since 2014

**100%** financial support  
(free tuition and stipend)

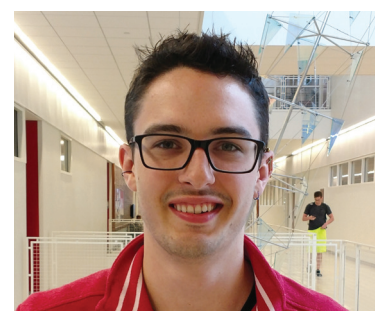

"The physics program has helped me develop my knowledge and build up my future career. I have attended many conferences and won best-poster and research awards."

– *Thilini Ekanayaka*

"Through my research and teaching experience here at UNL and by networking with similar research groups at Princeton, Berkeley, and elsewhere, I've made great strides toward a future career in academic physics."

– *Adam Higuet*

Portraits of students by Karl Ahrendsen, physics graduate student.
