

Husker ABC's of Saving Money Bulletin Board Kit

Directions:

- Print the following pages on any color paper. Red is recommended. It is best to use card stock as it is thicker than regular paper.
- Cut the pieces out according to how you would like to design your bulletin board.
For example, if you would like to place the “saving money” tips all over the board in no particular order, cut each piece out so you have 26 individual pieces.
- It is recommended to use tissue paper for the bulletin board background. Tissue paper is inexpensive and can be found in many colors and designs.
- Use staples or push pins to secure items to the bulletin board.
