APPLICATIONS DUE FEB. 15

www.unl.edu/summerprogram

Are you considering graduate school?

THE NEBRASKA SUMMER RESEARCH PROGRAM is a quality, **hands-on experience** in an environment that fosters growth and advancement of student scholars. Spend your summer at Nebraska experiencing close **faculty mentoring**, engaging research, and collaborative work.

Take advantage of this opportunity to develop important **research and presentation** skills that you will showcase in a research symposium. Enjoy seminars related to your field and **attend workshops** about applying to graduate school, preparing for the GRE, etiquette during interviews, and more. Have fun outside the lab on **cultural excursions** and other social and recreational activities. Begin exploring the various research topics and projects offered this year by visiting our website at www.unl.edu/summerprogram.
